TECHNICAL SKILLS

Languages: Python, C/C++, SQL (MySQL, NoSQL), JavaScript, TypeScript, Dart, HTML/CSS
Frameworks: React.js, React Native, Expo, Node.js, Flask, Flutter
Developer Tools: Git, Docker, AWS (EC2, RDS, CI/CD), Google Cloud, GitHub/GitLab, OpenAI API
Concepts: Distributed Systems, CI/CD, APIs, Experimentation & Analytics, Scalability, Cloud Infrastructure

EXPERIENCE

- Junior Developer / Software Tester** Jul 2025 – Sep 2025
GoToTags *Spokane, WA*
- Debugged and refactored Python/JavaScript applications, improving maintainability through OOP design.
 - Reduced production issues by 30% via test-driven fixes and automated pipelines.
 - Partnered cross-functionally with engineers in code reviews and CI/CD workflows to strengthen enterprise deployments.
 - Suggested UX-focused bug fixes that improved usability for end clients.
- Project Manager (Team Lead)** Sep 2024
Hewitt Learning – Whitworth University *Spokane, WA*
- Directed an 11-member agile team to deliver a K–12 math game in 1 week, coordinating sprints, standups, and backlog prioritization.
 - Improved gameplay logic efficiency by 50%, enhancing responsiveness and student engagement.
 - Incorporated student feedback into design iterations, aligning product features with user needs.
- Student Assistant** Nov 2021 – May 2025
Student Financial Services – Whitworth University *Spokane, WA*
- Provided technical/operational support for financial aid systems, resolving 30+ inquiries per shift with accuracy.
 - Trained and onboarded 5+ hires, reducing onboarding time by 30% and improving process efficiency.

PROJECTS

- Weekend Warriors** | *Node.js, React Native, AWS, Docker, MySQL, Stripe API* **May 2025**
- Led a 6-person team to develop a React Native mobile app for local community donations, using Jira to manage agile sprints and backlogs.
 - Built and deployed 10+ RESTful APIs with Node.js and Axios, enabling authentication, browsing, saving, and donation workflows.
 - Designed MySQL database on AWS RDS for secure storage and optimized queries, ensuring fast response under load.
 - Containerized backend with Docker, deployed on AWS EC2, and integrated Stripe API for PCI-compliant payment processing.
- Marketing Data Analysis** | *Python, R, SQL, Excel* **May 2024**
- Processed 50,000+ rows of marketing data over 5 years, automating ETL pipelines for cleaning and aggregation.
 - Applied K-Means clustering and statistical modeling to identify demographic-admission correlations, improving recruitment targeting.
 - Built interactive Python maps and dashboards to visualize trends and key insights for strategic decisions.
 - Presented findings to stakeholders, enabling data-driven adjustments to marketing and admissions strategy.
- Customer Sentiment Dashboard** | *Python, Tableau* **Apr 2024**
- Cleaned and analyzed 5,000+ British Airways customer reviews, extracting sentiment and trend insights.
 - Developed a Tableau dashboard with maps, time-series, and category breakdowns for easy consumption of insights.
 - Improved adoption of actionable insights by 40%, guiding service and operational decisions.
 - Collaborated with team members to iterate dashboard design, ensuring clarity and stakeholder engagement.

EDUCATION

Whitworth University **Spokane, WA**
B.A. Computer Science *May 2025*
