

Shubham Saini

Business Analyst, Data Scientist.

+15164357305 | shubhamsaini@mail.adelphi.edu | Bellerose, New York, United States | [LinkedIn](#)

SKILLS

- **Programming Languages:** Python (Pandas, NumPy, Scikit-learn).
- **Artificial Intelligence & Machine Learning:** K-means Clustering, Predictive Modeling, Advanced Analytics, Text Analytics.
- **Data Analysis & Visualization:** Advanced Excel (PivotTables, Power Query, VBA), Tableau, Matplotlib, Seaborn, Candlestick Charts, Jupyter Notebook.
- **Database Management & Querying:** SQL, Database Modeling, Data Preprocessing.
- **Business Intelligence:** Data Reporting, Trend Analysis, Dashboard Creation.
- **Statistical Methods:** Hypothesis Testing, Regression Analysis.

WORK EXPERIENCE

BUSINESS DEVELOPMENT ANALYST, ITC LTD, India

Jun 2022 - Jul 2023

- Leveraged data analytics tools (e.g., Tableau, SQL, and Excel) to analyze market trends and consumer behavior, enabling actionable insights that drove a 15% increase in market sales within six months.
- Conducted in-depth competitor benchmarking and developed dashboards to visualize critical KPIs, leading to a 20% growth in sales revenue and a 10% reduction in customer churn.
- Designed and implemented predictive models to forecast market demand and customer preferences, empowering strategic pivots in marketing efforts that enhanced decision-making efficiency.
- Collaborated with cross-functional teams to deploy data-driven strategies, improving operational efficiency and achieving a 25% increase in revenue and a 15% improvement in customer retention.
- Automated reporting workflows using advanced Excel and Python, reducing manual effort by 30% and ensuring real-time access to critical performance metrics.
- Identified business opportunities by analyzing large datasets and presenting insights to senior leadership, contributing to the development of new market entry strategies.

EDUCATION

Adelphi University, New York, United States

Aug 2023 - Dec 2024

MS in Business Analytics. - GPA: 3.74/4.0

Indira Gandhi National University, New Delhi, India

Jan 2019 – Jun 2022

BA in Business Management. - GPA: 7.4/10.

PROJECTS

Hackathon Project

Associated with Adelphi University,

- Machine learning project on K-means Clustering. Developed a machine learning model utilizing K-means clustering to segment customer data. This project involved preprocessing large datasets, implementing the K-means algorithm to identify distinct customer groups, and analyzing these segments. The solution demonstrated potential applications in targeted marketing strategies and customer behavior analysis.

Advanced Business Analytics Kaggle Project,

Silicon Valley Bank Analysis

- Overview Navigating Financial Instability: The March 2023 Collapse of Silicon Valley Bank and the Role of AI/ML in Identifying Risks.
- Analyzing Bank Data: Comparing Performance, Visualizing Trends, and Investigating Market Dynamics: Comparison of Banks (Citi, BofA, SIVB, NYCB, SBNY), Calculating average returns for large banks, Plotting Candlesticks graphs to visualize the stock performance of banks around the time of the Silicon Valley Bank collapse (Reporting with Tableau).

Capstone Project Based on Airlines Industry,

Airlines Industry Analysis

- Focuses on leveraging machine learning & data analysis techniques to Analyze their business strategies helping airlines reduce dissatisfaction rate, increase customer retention, & improve overall efficiency. Recommending targeted strategies to enhance customer loyalty & drive revenue growth.
