EDUCATION

Master of Science, Information Systems GPA-4.0

George Mason University, Fairfax, VA (June 2026)

Coursework: Analytics: Big Data to Information, Information Systems Analysis & Design, Database Systems

Bachelor of Engineering, Electronics and Telecommunication

University of Mumbai, India (May 2023)

TECHNICAL SKILLS

Languages & Tools: Python, SQL, R, Bash, Git, Jupyter, Excel, Tableau, Alteryx **ETL Development:** Data Transformation, Source-to-Target Mapping, Data Cleansing, Data Strategy, ServiceNow **Data Engineering & Pipelines:** ETL Design, Data Integration, Automation Scripts, Data Quality & Integrity Checks **Analytics & Modeling:** EDA, Predictive Modeling, Anomaly Detection, Statistical Analysis, ML Applications **Visualization & Collaboration:** Tableau, Power BI, Interactive Dashboards, Jira, Confluence, Agile/Scrum, Global Stakeholder Engagement

EXPERIENCE

Data Science Intern – Academic

Aug 2024 – May 2025

George Mason University

Fairfax, Virginia

- Designed and implemented scalable **ETL pipelines** using Python, R, and AWS S3 to ingest and standardize autonomous vehicle perception survey data.
- Improved **AWS Athena** query performance by **40%** through efficient partitioning and indexing strategies.
- Built interactive **Tableau dashboards** to visualize regulatory KPIs with **95%+ accuracy**, enhancing real-time compliance monitoring.
- Co-authored a **peer-reviewed arXiv paper** analyzing public sentiment toward autonomous transportation systems.
- Translated analytical findings into policy recommendations in collaboration with interdisciplinary research teams.

Website Developer Intern

Dec 2023 – Mar 2024

GFX Bandits IT Solution, LLP

Mumbai, India

- Developed and maintained responsive websites using **HTML, CSS, and JavaScript**, optimizing performance and reducing load times by **25%**.
- Designed visually engaging, user-centric interfaces that improved client satisfaction and boosted user engagement metrics by **30%**.

Trainee Engineer Intern – Automation & Analytics

May 2019 – July 2019

Shavison Electronics Pvt. Ltd.

Mumbai, India

- Supported data collection and live monitoring of **automation systems**, enhancing production throughput by **15%** and reducing defect rates by **10%**.
- Built internal **reporting dashboards** to analyze performance metrics, contributing to a **20% increase** in client satisfaction for tailored hardware solutions.

TECHNICAL PROJECTS

Third-Party Risk Analytics Dashboard

Python, SQL, Alteryx, Tableau, ServiceNow, Jira

- Developed an automated **dashboard in Tableau** to visualize third-party risk metrics, enabling real-time insights for compliance and vendor management.
- Built data pipelines using **SQL, Python, and Alteryx** to extract and cleanse vendor lifecycle data from systems like ServiceNow, reducing manual reporting effort by **65%**.
- Collaborated with risk SMEs and stakeholders to define key metrics and enhance usability of visual reports across business units.

Predictive Modeling for Vendor Risk Escalation

Python, Scikit-learn, SQL, Power BI, Excel

- Built a **logistic regression model** using historical compliance and audit data to predict high-risk vendors with **85% precision**, leveraging cross-validation and hyperparameter tuning.
- Deployed predictions in a **Power BI dashboard** to support proactive risk mitigation, reducing remediation response time by **30%**.

CERTIFICATIONS & PUBLICATIONS

AWS Certified Cloud Practitioner – Amazon Web Services (ID: AWS04662996, Expires November 2027)

AWS Training Completion: Solutions Architect – Associate – Online Course, May 2024

Public Perceptions of Autonomous Vehicles: A Survey in Pittsburgh – arXiv, 2024
