

RUKSANA NELLIYANTAVIDA

Software Engineer

PROFESSIONAL SUMMARY

Over 3 years of experience as a Full-Stack Developer with expertise in designing and implementing web applications that improved user engagement and streamlined processes. Proficient in Angular, TypeScript, JavaScript, Java, HTML, CSS, Spring Boot, and MySQL. Focused on creating responsive user interfaces and efficient backend systems.

EMPLOYMENT HISTORY

SOFTWARE ENGINEER

Jul 2022 - Jan 2025

AMCI Global (via Miracle Software Systems Inc.)

- Led a team of developers to deliver an Angular web application for 200+ dealerships, integrated with Nissan USA, improving appointment scheduling efficiency by 40% and reducing customer inquiries by 25%
- Introduced a vehicle pickup feature, facilitating 10,000+ annual service appointments, and ensured ADA compliance for 100% of user interfaces, improving accessibility across all dealerships
- Optimized version control and deployment workflows with AWS CodeCommit, CodePipeline, and S3, enhancing project management and asset security
- Engineered an Angular-based dealership management platform, improving operational efficiency by 30% for 50+ dealerships and designing role-specific interfaces for 50+ users to increase clarity and efficiency by 20%
- Developed a scheduling system to manage 1,000+ daily appointments and integrated Power BI for real-time insights, aiding 100+ users in decision-making
- Built a mobile-first Angular application for 100+ dealership agents to manage appointments, reducing fulfillment times by 20% and cutting paper use by 50% through digitized workflows

PROGRAMMER ANALYST

Jan 2022 - Jul 2022

Miracle Software Systems Inc.

- Designed and implemented 10+ REST APIs using Spring Boot and Spring Data JPA, improving system efficiency by 30%, and wrote 50+ unit test cases ensuring 95% code coverage
- Engineered 5+ microservices, increasing system scalability by 40%, and deployed applications on GCP with 99.9% uptime
- Developed and executed unit and integration tests using JUnit and Mockito, ensuring robust code quality
- Automated frontend testing with Jasmine and Karma, reducing bug detection time by 25%
- Collaborated in 15+ pair programming sessions, improving code quality and reducing development time by 20%

EDUCATION

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE

CUSAT

Kerala, India

COURSES

LEARN TO PROGRAM IN JAVA (DEV276X)

Microsoft

REACT.JS ESSENTIAL TRAINING

LinkedIn Learning

SKILLS

Java, TypeScript, JavaScript, HTML, CSS, Angular, React, Bootstrap, PrimeNG, Spring Boot, REST API, Microservices, AWS, GCP, MySQL, Docker, Kubernetes, Git, Jira.
