.NET Developer

- Designed, developed, and maintained **enterprise-level .NET Core applications** using C#, Web API, and EF Core.
- Built **RESTful APIs** to support web and mobile platforms, ensuring secure authentication with **JWT & OAuth2**.
- Implemented **microservices architecture** and deployed services on **Azure App Services** with CI/CD pipelines using Azure DevOps.
- Developed front-end modules using **Angular & React** for dynamic dashboards and data visualization.
- Wrote optimized SQL queries, stored procedures, and triggers in **SQL Server**, improving data retrieval performance by 30%.
- Collaborated with cross-functional teams in an Agile environment, actively participating in sprint planning, daily stand-ups, and code reviews.
- Built a cloud-hosted healthcare management portal using .NET Core 7 Web API and Angular 16 frontend.
- Integrated Role-Based Access Control (RBAC) and Identity Server for secure authentication/authorization.
- Developed patient and provider modules with real-time appointment scheduling and secure data handling compliant with HIPAA.
- Deployed application on Azure App Service with CI/CD pipelines in Azure DevOps.
- Implemented SQL Server with EF Core migrations, ensuring seamless database updates.
- Improved response times by 25% through query optimization and API caching.

Technologies: .NET Core 7, Angular 16, Entity Framework Core, SQL Server, Azure App Service, Azure DevOps, Bootstrap

.NET Developer

- Developed a scalable e-commerce application using .NET Core microservices and React frontend.
- Implemented product catalog, cart, payment gateway integration (Stripe/PayPal), and order tracking modules.
- Used Docker & Kubernetes for containerization and orchestration of microservices, improving deployment efficiency.
- Integrated MongoDB for product catalog and SQL Server for order/transaction data.
- Applied CQRS & Mediator pattern to improve system scalability and maintainability.
- Conducted unit testing with xUnit and set up CI/CD pipelines using GitHub Actions.

Technologies: .NET Core 6, React 18, SQL Server, MongoDB, Docker, Kubernetes, GitHub Actions

Education Details:

- Masters in Computer Science from University of central Missouri - 2025
- Bachelors in Electronics and Communication (ECE) from Malineni Perumallu Educational(MPES) - 2022
