

Ruthvik Raj Lakshmisetty

Houston, TX — (716) 520 3822 — lruthvik@gmail.com

Professional Summary

Highly versatile **Software Engineer** with experience in scalable **Java/Spring Boot microservices** and **advanced data integration**. Proven ability to optimize **SQL** and **data warehouse structures** (Snowflake, Oracle). Expertise spans **ETL, BI tools** (Power BI, Spotfire), and migrating applications to **responsive web solutions**.

Professional Experience

Artha Technologies (ConocoPhillips-Contract)
Software Developer

Mar 2024 - Present
Houston, TX, USA

- Executed **ETL** processes and visualized **20** years of user request and execution data using **Snowflake SQL** and **Spotfire**, resulting in the identification of top complaint drivers and a **4% reduction in overall user complaints**.
- Automated **300+ recurring reports** through robust **ETL workflows**, significantly improving operational efficiency and providing timely, accurate data for managers, marketing, and executive leadership.
- Collaborated with cross-functional teams to architect and maintain **oil & gas analytics databases, data warehousing, and reporting systems**, thereby ensuring data quality and boosting data accuracy by **25%**.
- Designed and analyzed high-value reports and dashboards using **PowerBI and Spotfire** to empower leadership with data-driven insights, which subsequently increased operational efficiency for the operations department by **5%**.
- Drove the end-to-end strategy and execution for migrating dashboards and aligning new features with critical business goals, resulting in an increase in **overall team productivity by 8%**.
- Optimized core SQL queries and data warehouse structures by adjusting indexing, partitioning, and materialized views, **reducing average query runtime for critical reports by 40%**.
- Built responsive user interfaces using **HTML, CSS, and JavaScript**, ensuring cross-browser compatibility and an intuitive user experience.
- Executed rigorous **smoke testing protocols** pre-deployment, identifying and patching critical rendering bugs before full user release.
- **Collaborated with QA to define new features**, reducing production regression defects by **15%** during the initial roll-out.
- **Provided high-touch hyper-care support** after launching automated reports, addressing data discrepancies and logic errors within limited time frame.
- Conducted **post-deployment tests** on core SQL queries and indexes, ensuring optimization efforts did not negatively impact data retrieval accuracy or system stability.
- **Debugged and fixed high-severity production incidents** involving failed Snowflake pipelines, utilizing time-travel features to restore data integrity with zero downtime for the dashboards.
- Acted as the **primary point of contact during the hyper-care** phase for major system upgrades, triaging user tickets and deploying hot-fixes for edge-case bugs that bypassed initial QA.

Kraft Society (Startup)
Software Developer

Dec 2019 - Jan 2023
Remote

- Developed and deployed scalable RESTful microservices using **Java 17 and Spring Boot**, reducing system latency by **20% through efficient request handling**.
- Collaborated with data engineering to normalize and design robust **PostgreSQL/MySQL schemas** for new feature development.
- Utilized **Object-Oriented Programming** principles and design patterns to write clean, maintainable, and reusable code.
- Optimized **complex and inefficient SQL queries** across the core reporting service, improving data retrieval.

Technical Skills

- **Languages & Frameworks:** Python, Java, R, JavaScript, TypeScript, Snowflake SQL, Spring Boot
- **Analytical & Reporting Tools:** Spotfire, Power BI, Sigma, Tableau, Adobe Analytics, Azure Data factory
- **Databases & Integration:** Snowflake, TeraData, Oracle, PostgreSQL, MongoDB, Informatica Cloud (IICS)
- **Data Science & ML Tools:** NumPy, PyTorch, OpenCV

Education

University at Buffalo
Master of Science, Computer Science

Buffalo, NY, USA
Aug 2022 - Dec 2023

Vellore Institute of Technology
Bachelor of Technology, Computer Science and Engineering

Vellore, TN, India
Jun 2018 - May 2022
