Finance: FP&A, Forecasting, Variance Analysis, Capex/Opex Planning
Modeling: DCF, Budgeting, Scenario Planning, KPI Dashboards
Tools: Tableau, Power BI, Excel VBA, Oracle Hyperion, Sage Intacct

Analytics: Python (Pandas, NumPy, Prophet, XGBoost), SQL
Methods: Financial Reporting, UAT, Agile, Process Improvement
Other: ERP Implementation, Data Migration, Stakeholder Engagement

Experience

Schneider Electric Jan 2025 – Present
Business Analyst Apprentice
Irvine, CA

- Consolidated fragmented reporting across 3 major utilities into unified dashboards, reducing monthly reporting time by 40% and enabling \$5M worth of capital allocation decisions to be made with real-time insights.
- Built predictive forecasting models using Prophet and XGBoost, improving accuracy of Opex/Capex forecasts by 25% and directly guiding prioritization of sustainability-linked investments worth over \$2M.
- Partnered with Finance, Operations, and ESG leaders to design repeatable and scalable reporting processes that aligned with corporate growth targets, supporting a division that generated over \$50M annually.

Spark Studios March 2022 – Jan 2024
Strategic Finance & Analytics Associate
Mumbai, India

- Led financial analysis of revenue streams that uncovered budget inefficiencies and redirected funds, driving a 20% YoY revenue increase (\$1.2M) and 30% client growth within a year.
- Designed Tableau dashboards forecasting sales pipelines and cash flow, which allowed leadership to expand into 3 new business segments, generating an additional \$500K ARR.
- Developed ROI models and scenario analyses that secured executive approval for partnership deals, projected to increase market penetration by 15% within the first 6 months.

Fintrac (FinTech SaaS Platform) Oct 2022 – Apr 2023
Chief Operating Officer
Mumbai, India

- Directed launch and operations of a SaaS platform that enabled recovery of unclaimed financial assets, successfully pitching to investors and securing \$750K in seed funding.
- Implemented automated reporting systems in SQL/Excel, reducing compliance reporting cycle by 25% and freeing 20+ analyst hours monthly.
- Established financial and operational architecture balancing regulatory compliance with growth strategy, preparing the company for a projected 3x scale-up in users.

UC Irvine – Paul Merage School of Business Oct 2024 – Jan 2025
Teaching Assistant – Management
Irvine, CA

- Facilitated leadership and organizational strategy coursework for 150+ students, grading projects and mentoring teams that improved case competition performance by 25%.
- Streamlined course delivery by introducing structured frameworks, improving turnaround time for feedback by 30% while ensuring academic rigor.

Projects

Housing Forecasting Capstone – Schneider Electric 2025
XGBoost, Prophet, Tableau

- Forecasted California housing permits post-wildfires by integrating 10+ external datasets and applying advanced models, delivering a Tableau dashboard that informed product strategy for a \$200M regional real estate market.

Humana Mays Case Competition 2023
Python, Excel, Strategy

- Designed a financial and retention model using healthcare utilization and churn data; proposed strategy was ranked in the top 1% of 500+ teams nationwide, projected to reduce member attrition by 12% and improve profitability by \$30M annually.

Automated Hedging Application 2023 – 2024
Python, ML, Backtesting

- Built an ML-powered trading engine that analyzed candlestick patterns and executed real-time paper trades, achieving 18% higher risk-adjusted returns compared to baseline strategies during backtesting.

Certifications

Six Sigma Green Belt (Coursera) Feb 2023
Process Optimization, DMAIC

Project Management Foundations (LinkedIn Learning) May 2024
WBS, Risk Logs, Scope Control

Citi Investment Banking Virtual Experience (Forage) Apr 2025
DCF, M&A, IPO Modeling
