SUMMARY

Computer Science Graduate with a strong foundation in programming, software development, and problem-solving. Seeking a software engineering role to apply technical skills, collaborate with professionals, and contribute to innovative projects.

EXPERIENCE

Data Analyst Intern

GVEC

June 2025 - Aug 2025, Seguin, TX

- Designed and delivered ad hoc reports and interactive Power BI dashboards to support cross-departmental decision-making and performance tracking.
- Developed a real-time data pipeline using EventStream and Eventhouse to modernize the Data Analytics Department Survey, enabling dynamic insights.
- Wrote a Python script leveraging the Power BI REST API to extract report metadata, trace data lineage, and populate a centralized table with source information for improved governance.

Project Management Intern

Trinity University

February 2024 - December 2024, San Antonio, TX

- Implemented tracking systems for project milestones using Asana, ensuring timely task completion.
- Lead cross-functional team meetings, ensuring alignment on technical goals, budgets, and timelines.
- Coordinated with external vendors for software integration and development project requirements.

ITS Student Worker

Trinity University

August 2021 - December 2022, San Antonio, TX

- Assisted users with password resets and account recovery using Trinity's account management system, ensuring secure and timely access restoration.
- Served on rotating help desk shifts, handling support tickets related to login issues, software access, and connectivity problems.
- Managed asset check-in/check-out for laptops, monitors, and classroom equipment; performed basic inventory tracking and AV troubleshooting.

PROJECTS

Playlist Crusaders

HTD Talent • github.com/rsoto726/capstone-PlaylistCrusaders

- Developed a full-stack web application enabling users to create, edit, and manage personalized YouTube music playlists with a focus on audio experience.
- Implemented React frontend and Spring Boot backend with secure user authentication and role-based access control.
- Designed lightweight, shareable playlists with a clean UI for easy music discovery and management.
- Solves the common user pain point of organizing favorite YouTube songs in a streamlined, audio-first format.

Fantasy Football App

Trinity University • github.com/mjonsson1/fantasyfootball

- Led frontend development for a web-based Fantasy Football platform with a Python/MySQL backend.
- Built multiple key features including user authentication and an injury impact analyzer.
- Delivered scalable, maintainable code with a focus on seamless API integration and responsive UI.

EDUCATION

Bachelor's Degree in Computer Science

Trinity University • San Antonio, TX • December 2024

CERTIFICATIONS

Google IT Support Professional Certification

Coursera • November 2024

Microsoft Excel 2019 Associate Certification

Trinity University • November 2024

SKILLS

Skills: Asana, Java, Spring, HTML/CSS, Maven, Customer Service, JavaScript, MySQL, MS Office Proficiency, Windows Knowledge, VM Experience, TypeScript, Microsoft Fabric, Power BI, Python, API experience.
