

SUMMARY

Data & AI Engineer with a Master’s in Computer Science and hands-on experience in data pipelines, AI/ML models, cloud-native applications, and business intelligence dashboards. Skilled in Python, SQL, Power BI, and AWS/Azure cloud services. Familiar with Agile/Scrum methodologies for project delivery. Adaptable and motivated to contribute across analytics, automation, and product development.

SKILLS

Programming & Frameworks: Python (Flask, Pandas, NumPy), SQL, JavaScript, MongoDB, MATLAB
Data & Cloud: Hadoop, PySpark, MapReduce, Azure, IBM Cloud
Analytics & AI: ETL Pipelines, Predictive Analytics, Power BI, Tableau, TensorFlow, Scikit-learn, Anomaly Detection
DevOps & APIs: GitHub Actions (CI/CD), REST APIs
Concepts: Agile/Scrum methodologies, Machine Learning, Compliance Dashboards, Data Visualization, IoT Integration

PROFESSIONAL EXPERIENCE

- Data Analyst** | Dec 2024 – Present
- Built Power BI dashboards to track compliance-style KPIs, enabling executives to make risk-aware decisions.
 - Designed and optimized ETL workflows for automated data ingestion and processing, improving data delivery speed by 35%.
 - Deployed dashboards and data pipelines on **Azure cloud**, leveraging GitHub Actions for automated testing and deployment of updates.
 - Collaborated with cross-functional teams to translate analytics into actionable insights for operational improvement.
- Artificial Intelligence Intern | RadicalX** | Nov 2023 – Mar 2024
- Developed and fine-tuned ML models for anomaly detection and predictive insights, improving accuracy by 20%.
 - Contributed to analytics tools that supported operational decision-making.
 - Documented workflows and explained technical outcomes in business-friendly terms for stakeholders.
- Intern – Mediamint** | May – Aug 2021
- Supported data-driven campaign strategies through SEO, social media analytics, and reporting dashboards.
 - Improved targeting and engagement through automated data analysis pipelines.
- Intern – BSNL Telecom** | Jun – Aug 2019
- Evaluated network reliability and implemented fault tracing for seamless data communication.
 - Gained expertise in optical fiber, security protocols, and compliance-related infrastructure.

PROJECTS

- Data Pipeline Web Application (Flask + SQL + Azure)** | October 2022
- Developed a vendor management platform with automated ETL pipelines for ingestion, categorization, and reporting.
 - Ensured secure and scalable access by deploying the application on Azure cloud, integrating database connections and backend logic.
 - Configured lightweight CI/CD workflows to automate deployment of updates and reduce manual intervention.
- AI-Powered Chatbot (IBM Watson + Python + Cloud)** | October 2023
- Built and deployed a customer support chatbot integrated with WordPress.
 - Used Watson Assistant and Python logic to improve context handling and automate FAQs.
 - Demonstrated real-world client-facing automation for compliance-style use cases.
- Big Data Analysis Framework (Hadoop + Python)** | May 2023
- Designed and implemented a big data pipeline using Hadoop MapReduce on a 1.1 GB dataset.
 - Produced insight dashboards (Python visualizations) to simulate decision reporting.
- Forest Fire Detection & Alert System (IoT + Python + MATLAB)** | May 2021
- Published research on a predictive alert system using sensor networks and anomaly detection methods.
 - Applied ML/DSP techniques for early anomaly detection, aligning with risk intelligence use cases.
 - Simulated energy/resource delivery reliability through sensor-based alert automation and real-time data flow.

EDUCATION

Master of Science, Computer Science – University of Texas at Arlington | GPA: 3.50 | May 2023
Bachelor of Technology, Electronics & Communication Engineering – JNTU | GPA: 3.70 | Jul 2021

CERTIFICATIONS & LEADERSHIP

- Published Author – Forest Fire Detection & Prediction for Safety Measures (IJRASET, 2021)
- Agile / Scrum Learning Certification (completed)
- President, Science Club – Emirates Future International Academy
- Sr. International Student Representative – ROBO-VEDA 2019
