

Safaa Patel

Reno, NV 📞 (775)3546020 ✉️ safaap@unr.edu  [linkedin.com/in/safaapatel/](https://www.linkedin.com/in/safaapatel/)  github.com/safaapatel/

Education

University of Nevada, Reno

Master of Science in Computer Science Engineering | 3.9/4.0

May 2026(Expected)

Reno, Nevada, USA

Relevant Coursework: Data Visualization, Advanced Computer Vision, Gametheory in cybersecurity, Human-Computer Interaction

D Y Patil International University

Bachelor of Technology in Computer Science, specialization in Data Science | 9.0/10.0 (3.6/4.0)

Aug 2021 - Jun 2024

Pune, India

Relevant Coursework: Embedded systems, AI applications and ethics, Deep Neural networks, Advanced Data Science

Professional Experience

Joe Crowley Student Union, University of Nevada, Reno

May 2025 – Present

Student Worker – Info Desk & Building Operations, Reception

Reno, NV

- Provide front-line support to students, staff, and visitors by answering inquiries, troubleshooting issues, and guiding them across resources.
- Coordinate with operations staff to report and resolve facilities-related concerns efficiently.
- Manage building keys, event schedules, and service calls while maintaining professional communication in a high-traffic environment.

University of Nevada, Reno

Oct 2024 – Dec 2024

Grader – Mechanical Engineering Department

- Evaluate and grade assignments, quizzes, and projects for undergraduate computer science courses.
- Provide clear, constructive feedback to students to support their academic progress.
- Collaborate with instructors to maintain grading consistency and resolve student queries.

Cylc and Sons Management

May 2025- July 2025

Data Analyst Intern

Remote

- Analyzed large datasets using Python and SQL to extract actionable insights and support data-driven decisions
- Created interactive dashboards in Tableau/Power BI to visualize key metrics and trends for stakeholders
- Automated data cleaning and reporting processes, reducing manual effort and improving efficiency

University of Nevada, Reno

Oct 2024 – Dec 2024

Research Assistant

Reno, Nevada

- Engineered high-performance data workflows using JAX and MPI, achieving 40% faster computation on HPC clusters.
- Optimized data pipelines for 10,000+ simulation frames, enabling scalable analytics for ML datasets.
- Enhanced numerical model accuracy by 20% via Crank-Nicolson Runge-Kutta 4th order schemes.

Johnson Controls

Jan 2024 - Jun 2024

IT Intern

Pune, India

- Migrated **Apache Hive** to **Snowflake**, reducing query response times by **35%** and improving cloud integration.
- Automated ETL processes with Python, cutting manual reporting efforts by **40%** while ensuring 99% data accuracy.
- Designed **Power BI dashboards** to visualize transaction trends, enabling data-driven decisions for stakeholders.

Chanakya Software Services

May 2023 - Jul 2023

Full Stack Intern

Pune, India

- Implemented analytical software for government department using modern web technologies, enhancing data visualization and reporting efficiency
- Developed ETL processes to integrate data from multiple sources, ensuring data consistency and integrity
- Created visually appealing reports that improved data interpretation and decision-making capabilities

Research and Publications

S. Patel, G. Zagade, and R. Sharma "Sentiment Analysis of GitHub Commit Comments using Machine Learning Techniques," 2024 2nd DMIHER International Conference on Artificial Intelligence in Healthcare, Education and Industry (IDICAIEI), Wardha, India, pp. 1-6, DOI: 10.1109/IDICAIEI61867.2024.10842851

Projects

Sentiment Analysis of GitHub Commit Comments | Web Scraping, Data Science

Repo Aug 2023 - Jun 2024

- Implemented data collection of **1 million commit messages** using GitHub API and automated retrieval of commit comments for analysis.
- Trained machine learning models (e.g., **Random Forest**, **Passive Aggressive Classifier**) for sentiment classification, improving accuracy by **15%**.

Music Recommender System | ML Algorithms, Data preprocessing, Data Cleaning, Data Visualisation

Repo Nov 2020 - Jul 2021

- Led a **4-person team** to build a music recommendation system, processing **1M+ music tracks** and **100K+ user interactions**.
- Achieved a **25% recommendation accuracy** with a **Mean Absolute Error (MAE)** of 0.073

Skills

- **Programming Languages:** Python (Advanced), Java, C++, R, JavaScript, HTML/CSS, SQL, MATLAB, C, Bash scripting
- **Frameworks & Libraries:** TensorFlow, PyTorch, Keras, Scikit-learn, Pandas, NumPy, Svelte, React, Fastify, Tailwind CSS, Node.js
- **Database Management:** PostgreSQL, MySQL, MongoDB, Oracle SQL, Snowflake
- **Developer Tools:** Git/GitHub, AWS, RESTful APIs, Figma, ServiceNow, CUDA, Excel, Power BI, Tableau, Word, PowerPoint, Access
- **Data Engineering:** ETL Design, Data Modeling, Data Warehousing, Distributed Computing (MPI, JAX)
- **AI/ML Specialization:** Sentiment Analysis, Computer Vision, Collaborative Filtering, High-Performance Computing
- **Soft Skills:** Communication, problem-solving, adaptability, teamwork, customer service, time management, attention to detail, professionalism, initiative, conflict resolution.
