PROFILE

Aspiring Data Analyst with strong analytical and problem-solving skills. Proficient in Python, SQL, and data visualization tools like NumPy and Matplotlib. Completed real-world projects to extract insights from data. Solved 270+ LeetCode problems, improving logic and data structures skills. Eager to apply data analysis techniques to solve business problems and improve decision-making.

EXPERIENCE

Data Analyst

Aug 2024 – Present

Fiverr

Remote

- Completed 20+ freelance projects involving end-to-end data solutions: writing Python scripts, SQL queries, and statistical analysis (mean, variance, correlation).
- Created impactful visual reports and dashboards; solved complex problems in probability, calculus, linear algebra, and hypothesis testing to support client decisions.

Active Member

Nov 2024 – Present

Computer Science Society, Sukkur IBA University

Sukkur, Pakistan

- Organized and participated in hackathons, tech seminars, and coding competitions.

PROJECTS

Analyzing International Debts Statistics | SQL

- Performed in-depth analysis of international debt datasets using SQL queries.
- Extracted meaningful patterns and presented findings for better financial insights.

Analyzing Students' Mental Health | SQL

- Identified mental health issues among students by analyzing large datasets using SQL.
- Derived key factors affecting student mental health and recommended improvements.

Excel Projects | Excel, Python (Pandas)

- Created interactive dashboards using Excel charts, slicers, pivot tables, and Pandas.

ATM Management System | Java, JDBC, Java Swing

PhoneBook Management System | Java, File Handling

Power Booster App | Java, Swing, Sockets

KEY ACHIEVEMENTS

- Sindh Talent Hunt Program (2023): Awarded Merit Scholarship by Govt. of Sindh.
- Hackathon Winner (2025): 1st place at Sukkur IBA University Hackathon.
- Solved 270+ LeetCode Problems in DS & Algorithms, Python, Java, SQL.

TECHNICAL SKILLS

Languages: Python, SQL, C++, Java, NumPy, Pandas, Matplotlib, Seaborn

Data Analysis: Data Cleaning, Visualization, Manipulation SQL Queries, Problem Solving, Data Driven

Tools: Jupyter Notebook, Excel, IntelliJ, Visual Studio, Power BI, Tableau

Other: WordPress, SEO (On/Off Page, Technical)

EDUCATION

Sukkur IBA University

Bachelor of Science in Computer Science

Aug 2023 – Aug 2027

CGPA: 3.31 — Sukkur, Pakistan

CERTIFICATIONS

- WordPress
- Freelancing
- SQL Fundamentals
- Data Analyst in SQL
- Python Data Fundamentals
- Volunteer Service
- Associate Data Analyst
- Community Service
- Events
- Python Programming Fundamentals
