| sahilhratwani@gmail.com | (917) 378-0916 | New York, NY | [LinkedIn](#)

Summary

PharmD and MS in Health Informatics (AI Track) with proven expertise in commercial analytics, data science and strategic insights spanning startups, pharmaceutical/biotech industries and retail. Proficient in transforming complex healthcare data into actionable business intelligence. Adept at building relationships and guiding partners through complex decision-making processes with critical thinking and outstanding interpersonal, presentation, and communication skills.

Work Experience

SwipeBiome New York, NYC
Consultant – Commercial and Strategic Insights May 2025 – Aug’ 2025

- Led financial feasibility analysis for a personalized gut microbiome wellness platform, built budget impact models that projected \$2.2 M cost avoidance and revenue forecasts informing value-based pricing scenarios
- Assessed ROI for pharma-diagnostics partnership in GI & mental-health segments, informing C-suite investment decisions
- Conducted U.S. FDA/EU SaMD regulatory gap analysis; mapped clinical validation and post-marketing surveillance needs to accelerate clearance
- Advised on KOL engagement, real-world data generation and HCP education, lifting client engagement by 25%
- Delivered GTM roadmap that reduced customer-acquisition cost by 15% and increased retention

Biosyntiya Solutions Pvt. Ltd. India
Consultant – Clinical Research December 2023 – July 2024

- Executed post-marketing safety studies for cardiometabolic, autoimmune and oncology assets; produced risk-management deliverables adopted in 3 regulatory submissions
- Conducted drug utilization reviews (DUR) on JAK inhibitor; identified 18% off-label use, triggering label-clarification plan and targeted HCP outreach

AarogyaAI Innovations Pvt. Ltd. India
Research Associate May 2023 – June 2024

- Directed multi-center clinical validation of AI-based diagnostic products for TB and fungal, STD pathogens; designed protocols, IRB approvals, site assessments, and ensured 100% compliance across 800 patients
- Harmonized 1.3 M genomic records sourced from NCBI SRA, private clinical isolates, EMBL-EBI, and WHO CRyPTIC
- Built reproducible data processing pipelines for multiple infections reducing data processing time by 30%
- Collaborated with microbiologists to define clinical performance metrics for AI models intended for use of point-of-care settings
- Bench-marked ML antibiotic-susceptibility models against CLSI MIC breakpoints, informing product performance claims

Equality Healthcare Pvt. Ltd. (eVitalRx) India
Product Associate May 2022 – Jan 2023

- Curated and de-duplicated a 300K+ medication & FMCG catalogue; reduced data redundancy and improved search by 40% for eVitalRx’s pharmacy SaaS platform
- Mapped key attributes (strength, form, ATC class) to HL7 FHIR medication resources, enabling downstream interoperability with government run initiative to digitize health records
- Hired and guided 3-intern data-quality team; new SOPs and SQL cleanups raised weekly output by 25% with 99% accuracy
- Built a structured database of medication information aligning with SNOMED CT

Education

Cornell University, Weill Cornell Medicine
MS Health Informatics (AI Track), Population Health Sciences

Capstone Project: A phenotype-aware multi-modal framework for robust Age-related Macular Degeneration (AMD) prognosis

LM College of Pharmacy
Doctor of Pharmacy, PharmD

Clinical Pharmacist Residency (May 2021 – April 2023)

Skills

Programming Languages: Python, R Studio, SQL
Tools: SPSS, STATA, Tableau, Jira, MS Office
Certifications: ICH GCP E6(R2), CITI Responsible Conduct of Research, CITI Biomedical Research Investigators & Key Personnel, EHR Standards for Healthcare Automation (NRCeS)
