EXPERIENCE

Capgemini – Mumbai, IN

Sr. Data Analyst

07/2022 – 07/2023

- Designed self-service **Tableau** and **Power BI** dashboards to track marketing funnel KPIs and campaign effectiveness, enabling anomaly detection and improving SLA adherence by 20%
- Built end-to-end marketing data (**ETL**) pipelines using **Databricks** and **Azure Data Factory**, integrating media spend and performance data to reduce processing latency by 40%
- Analyzed **Salesforce** CRM and digital marketing data to perform multi-touch attribution and ROI analysis, driving 15% lift in lead conversions through improved budget allocation
- Standardized campaign KPIs across departments using modular **dbt** models in **Snowflake**, cutting dashboard development time by 35% and aligning media performance metrics
- Conducted regression analysis and exploratory data analysis (**EDA**) in **Excel** and **R** to uncover marketing trends, increasing forecast accuracy by 15% and reducing reporting cycles by 20%

Data Analyst

07/2021 – 07/2022

- Supported the optimization of marketing data pipelines using dbt and Snowflake to improve model accuracy and performance, enhancing media performance reporting by 30%
- Partnered with product and marketing teams to analyze cross-channel customer journeys via **Redshift** and **BigQuery**, optimizing attribution strategies and increasing email click-through rates by 12% and session durations
- Built **predictive models** using Python to forecast customer churn and lifetime value, leading to \$200K+ in retained revenue
- Created 5+ **Looker** dashboards to visualize marketing KPIs, helping stakeholders make campaign and growth decisions
- Documented **KPI** definition, ownership and business logic in **Confluence**, increasing transparency and self-serve BI adoption

Business Intelligence and Data Analyst | I-Assist Healthcare Pvt Ltd – Mumbai, IN

01/2019 – 08/2019

- Audited EHR, claims, and billing datasets using SQL, uncovering reporting gaps and inefficiencies that enhanced data accuracy and saved \$50K+ annually in **healthcare** operations
- Constructed **Power BI** dashboards for **healthcare** and **marketing KPIs**, reducing executive report turnaround time by **30%**
- Orchestrated collaboration with product and analytics teams to define user stories and manage sprint backlogs in **JIRA**, expediting the rollout of 12 new features and reducing patient check-in time by 15%

SKILLS

Data Analysis & Visualization	: SQL, Tableau, Amazon QuickSight, Power BI (DAX), Microsoft Excel, Streamlit, Plotly
Statistical Analysis	: Hypothesis testing, regression modeling, A/B testing, EDA (Python, Excel)
Data Warehousing & Databases	: Snowflake, Oracle, Google BigQuery, PostgreSQL, MySQL, NoSQL
Data Engineering & Big Data Tools	: Talend, Alteryx, Databricks, AWS (Data Pipeline, S3), Azure Data Factory
Project Management & Other Tools	: Agile Methodologies, JIRA, Confluence, Git, Scrum, JupyterLab

PROJECTS

Motor Vehicle Collision / Crashes

09/2024 – 12/2024

- Engineered a sales performance dashboard using **Metabase** and **Snowflake**, providing real-time KPI visibility, enabling a 20% faster trend detection, and supporting regional drill-downs for operational planning
- Spearheaded evaluation of new ML tools and cloud capabilities, facilitating a team-wide migration to Databricks that cut batch processing times by 35% and enabled readiness for streaming data, improving data availability timelines

Food Inspection Analysis

01/2024 – 05/2024

- Conducted advanced data modeling with **regression** and **clustering**, identifying high-risk vendor groups and reducing inspection backlog by 18%, thereby strengthening seasonal food safety strategy
- Tested **Looker** dashboards using **Selenium**, ensuring accuracy in filters and drill-down reports for risk decision-making

Hospital Management System

09/2023 – 12/2023

- Audited EHR data, identifying gaps that enhanced processing efficiency and reduced administrative task load by 20%
- Designed **Looker** data visualizations, accelerating decision-making efficiency by 25%, leading to operational effectiveness

EDUCATION

Northeastern University, Boston, MA

09/2023 – 05/2025

Master of Science in Information Systems | Specialization in Data Analytics

University of Mumbai, Mumbai, IN

08/2017 – 06/2021

Bachelor of Engineering in Electronics and Telecommunication

CERTIFICATION

Microsoft Certified: Power BI Data Analyst Associate
