Work Experience

Technical Support Specialist, TEAMSOS(Special order systems)| March 2025 - Present

- Provide Tier 2/3 technical support for 2,500+ end-users across the Department of Parks and Recreation, ensuring continuity and optimization of key production systems.
- Perform in-depth analysis and resolution of complex software issues, contributing to root cause identification and long-term system reliability.
- Collaborate with IT teams to test, implement, and support new software policies and standards in alignment with organizational goals.
- Train end-users and implement proactive solutions that reduce ticket volume and enhance system adoption across the enterprise.

Project Manager, Renaissance Society, Sacramento State | January 2024 - Present

- Collaborate and lead a 5-member team to provide IT solutions, ensuring smooth operations and addressing technical needs.
- Spearhead the development of a custom CRM system, aligned with organizational requirements.
- Lead the design and customization of a CRM platform that integrates with the organization's existing processes. Coordinate with team members to configure the CRM database, ensure data migration, and develop reporting features tailored to the organization's needs.

Data Entry Intern, Construction Industry Research Board, June 2023 - September 2023

- Collaborated closely with the Research Director to understand the organization's data needs and ensure that information was accurately entered into the statewide database.
- Efficiently processed and logged over 500 construction permits per week, ensuring that records were up to date and accurate. This required meticulous attention to detail and the ability to work with large datasets without compromising quality.
- Worked closely with data analysts and staff to ensure that the data was properly integrated into the statewide database and aligned with ongoing research efforts. This involved troubleshooting data inconsistencies and ensuring compatibility between different data systems..

Freight Dispatcher, S Bains Trucking, Roseville, CA January 2020 - December 2022

- Played a key role in expanding the company's client base by negotiating and securing more than 20 contracts with freight distributors. This helped the company broaden its network and gain access to more lucrative and consistent freight opportunities.
- Actively contacted 30-40 brokers each day via phone and email to source the best available freight loads that aligned with the company's capabilities and schedules. This involved comparing rates, delivery windows, and route specifications to ensure optimal load planning.
- Used Microsoft Excel to keep records of shipments, deliveries, and the payments of loads.
- Coordinated the transportation of freights by working with the brokers and the drivers.
