

Sahishnavi G

Software Development Engineer

Plano, TX | sahisnavi8@gmail.com | 972-447-7262

PROFESSIONAL SUMMARY

Software Development Engineer with 3 years of experience building scalable backend services, REST APIs, and cloud-native applications using .NET, C#, ASP.NET Core, SQL Server, and Azure. Strong in microservices, distributed systems, and CI/CD automation. Skilled at debugging complex issues, optimizing performance, and delivering reliable, maintainable code in Agile teams. Hands-on across-the-backend engineering, system design, API development, and cloud infrastructure.

PROFESSIONAL EXPERIENCE

Software Development Engineer

May 2024-Present

Humana

Plano, TX

- Designed and developed **RESTful APIs** using .NET Core, improving performance and reducing response time by 30%.
- Built microservices with **C#, Web API, Entity Framework Core**, enabling scalable service communication.
- Integrated **Azure Functions, Service Bus, and App Configuration** to support event-driven workflows.
- Implemented **CI/CD** pipelines with Azure DevOps, cutting deployment time by **40%**.
- Automated deployment of Python based machine learning models by containerizing scoring logic using **Docker** and orchestrating via **Kubernetes**.
- Developed **SQL** stored procedures and optimized queries, reducing database load by **25%**.
- Wrote unit tests (XUnit) and automated integration tests for better quality assurance.

Software Engineer

Jan 2023- Jan 2024

Insurance Services Office, Inc (Verisk)

Irving, TX

- Developed enterprise applications using **ASP.NET Core MVC, C#, and SQL Server** for insurance analytics platforms.
- Improved API reliability by implementing retry logic, caching, and logging using Serilog.
- Migrated legacy **.NET Framework** modules to **.NET Core**, improving maintainability.
- Deployed and implemented front-end enhancements using **Razor Pages, HTML, CSS, and basic JavaScript**.
- Collaborated with QA and product teams in Agile ceremonies, improving sprint predictability and delivery quality.

Junior .NET Developer

Jun 2020- Jul 2021

Tech Mahindra

India

- Assisted in developing Web API endpoints in **C# and ASP.NET Core**.
- Created SQL tables, views, and stored procedures in **SQL Server**.
- Integrating third-party APIs and implementing authentication using **JWT**, enhancing security and streamlining user access.
- Performed debugging, bug fixes, and enhancements to existing .NET web applications.
- Supported deployments and configuration management in **Azure DevOps**.

SKILLS

- **Languages:** C#, .NET Core, .NET 6/7, SQL, JavaScript, Python
- **Frameworks:** ASP.NET Core, Web API, Entity Framework Core, MVC
- **Cloud:** Azure Functions, App Service, Azure SQL, Service Bus, Key Vault
- **Databases:** SQL Server, PostgreSQL, MongoDB
- **Tools:** Git, Azure DevOps, Postman, Swagger, Docker
- **Practices:** Microservices, Clean Architecture, Unit Testing (XUnit/NUnit), CI/CD, Agile/Scrum

EDUCATION

Master Of Science in Computer Science

May 2024

Campbellsville University

Bachelor of Technology in Mechanical Engineering

Jun 2020

Malla Reddy College of Engineering
