

SAHITHI ALASAKANI

Data Analyst | Business Intelligence Analyst | Reporting Specialist

 sahithialasakani7@gmail.com |  930-267-9822

Professional Summary

Detail-oriented and results-driven Data Analyst with over 3+ years of experience in business intelligence, data visualization, and analytical modeling. Specializes in transforming raw datasets into executive-level insights using advanced SQL, Python, and BI tools like Power BI and Tableau. Skilled in delivering high-impact dashboards, performing ad-hoc analysis, and supporting decision-making across healthcare, retail, and financial domains. Adept at stakeholder communication, data storytelling, and cross-functional teamwork in Agile environments.

Core Competencies

Analytical Tools: Python (Pandas, NumPy, Scikit-learn), R, Excel (Power Query, PivotTables), SQL (T-SQL, PL/pgSQL)

Data Visualization: Power BI, Tableau, Looker Studio, D3.js, Advanced Excel, KPI Dashboards

Database Systems: PostgreSQL, SQL Server, MySQL, Oracle, MongoDB

Cloud & BI Platforms: AWS (Redshift, QuickSight), Azure (Synapse, Data Factory, Databricks), Snowflake, GCP BigQuery

Reporting & Analytics: Ad-hoc Reporting, A/B Testing, Exploratory Data Analysis (EDA),

Predictive Analytics, Descriptive Analytics

Soft Skills: Data Storytelling, Business Acumen, Agile/Scrum, Cross-functional Collaboration, Stakeholder Communication

Other: Git, JIRA, Confluence, DAX, UAT Testing, Data Governance, Business Process Optimization

Professional Experience

Data Analyst | Humana Inc. — Louisville, KY (Aug 2024 – June 2025)

- Conducted advanced EDA to identify patterns in claims and enrollment data for care management initiatives.
- Partnered with clinical teams to design metrics for risk scoring and utilization forecasting.
- Developed SQL triggers and stored procedures to automate claims validation checks.
- Developed SQL-based data pipelines and automated ETL workflows for member eligibility and claims data across millions of healthcare records, increasing data availability by 30%.
- Leveraged Python and Scikit-learn to build a predictive model for hospital readmission, improving forecast accuracy (AUC = 0.91).

- Designed Power BI dashboards for clinical and executive teams, integrating KPI indicators to support decision-making across care programs.
- Collaborated in a HIPAA-compliant cloud environment (AWS + Redshift + Databricks) to deliver real-time insights with minimal latency.

Data Analyst | Cognizant Technology Solutions (CTS) — Chennai, India (April 2023 – Jan 2024)

- Built KPI dashboards to track marketing campaign effectiveness and customer acquisition cost.
- Created parameterized reports using Power BI for real-time retail inventory updates.
- Delivered operational analytics for a retail client using Tableau dashboards and SQL transformations.
- Built Azure Synapse pipelines for high-volume customer transaction data and implemented DAX models for cost-performance metrics.
- Supported stakeholder reporting by automating monthly executive summaries and ad-hoc visualizations.

Associate Data Analyst | Wipro Technologies — Hyderabad, India (Sep 2021 – Feb 2023)

- Maintained documentation for data pipelines and reporting tools to support audits and knowledge transfer.
- Integrated third-party APIs into reporting workflows using Python for real-time alerting.
- Created ETL workflows with Talend and SSIS for a telecom client, enabling integration of real-time call center and network logs.
- Participated in root cause analysis (RCA) sessions and data quality checks to support accurate reporting.
- Contributed to migration of legacy dashboards to Power BI, reducing load times by 50% and enhancing interactivity.

Certifications

Microsoft Certified: Power BI Data Analyst Associate – Microsoft (2024)

Google Advanced Data Analytics Certificate – Coursera (2024)

AWS Certified Data Analytics – Specialty – Amazon Web Services (2024)

Education

Master of Science in Information Technology and Management
Indiana Wesleyan University (USA), 2025
