CAREER SUMMARY

AWS-Focused Full Stack Developer with 3+ years of experience designing and delivering **responsive, accessible, and high-performance applications** across enterprise and SaaS environments. Skilled in **React.js, Redux, TypeScript, TailwindCSS, Java, and Spring Boot**, with strong expertise in developing and integrating **RESTful APIs, GraphQL, and gRPC frameworks**. Experienced in building scalable, **serverless (FaaS-based) architectures** and distributed systems with AWS services (Lambda, API Gateway, EC2, RDS). Strong background in **object-oriented programming (OOP), Postgres, and CI/CD pipelines**, with a focus on clean, user-centered design, Agile delivery, and compliance-driven best practices.

PROFESSIONAL SUMMARY

- 3+ years of experience in **full stack development** using React.js, Node.js, Java, Python, and Spring Boot across enterprise and SaaS applications.
- Designed **scalable backends and API frameworks** using Node.js, Express.js, Java, and Spring Boot, integrated with React.js frontends.
- Skilled in debugging, defect tracing, and performance tuning across distributed systems using Postgres, Redis, and Apollo.
- Developed and consumed **REST APIs and gRPC services**, supporting **serverless, FaaS-based architectures** for enterprise scalability.
- Worked with relational and NoSQL databases including PostgreSQL, SQL Server, and MongoDB; experienced in schema design and query optimization.
- Deployed and maintained **cloud-native services on AWS (Lambda, API Gateway, EC2, Cognito)** and Firebase with automated **CI/CD pipelines** using GitHub, Jenkins, and GitLab.
- Frontend expertise in React.js, TypeScript, Redux Toolkit, Material UI, and TailwindCSS, delivering **accessible (WCAG/ARIA-compliant)**, responsive, and user-centered experiences.
- Delivered AI-driven applications using OpenAI GPT models, integrating **monitoring, auditability, and compliance-ready workflows**.
- Strong knowledge of **CI/CD pipelines, automated testing, and Agile/Scrum practices**, including sprint planning, backlog grooming, and code reviews.
- Practiced **test-driven development (TDD)** and automated testing using Jest, Cypress, React Testing Library, JUnit, Selenium, and Postman.
- Collaborated with cross-functional teams in product, design, compliance, and enterprise architecture to ensure alignment with technical standards and governance.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SCSS, XML, JSON, SQL
- **Frontend Technologies & Frameworks:** React.js, Redux, Redux Toolkit, React Router, Context API, React Hooks API, TailwindCSS, Material UI, JQuery
- **Backend Technologies:** Node.js, Express.js, Java, Spring Boot, Firebase Functions
- **API Development & Integration:** RESTful APIs, GraphQL, gRPC, Secure API Development with JWT, HTTPS, CORS, Axios, Webpack, Microservices, WebSocket, API Frameworks, A2A Services
- **Databases:** PostgreSQL, SQL Server, Oracle, MongoDB, NoSQL (Schema Design, Query Optimization, Migrations)
- **Testing & QA:** Jest, Cypress, React Testing Library, Selenium, JUnit, TestNG, Postman, Unit Testing, Integration Testing, TDD, Mocha, Automated Testing
- **Architecture & Systems:** Distributed Systems, Multi-Tier Architectures, OOP, Serverless Architectures (FaaS), System Design, Design Patterns
- **DevOps & CI/CD Tools:** Git, GitHub, GitLab, Jenkins, Docker, Vercel, Kubernetes, Terraform, CI/CD Pipelines
- **Cloud Platforms:** AWS (Lambda, API Gateway, EC2, RDS, Cognito), Firebase, Azure
- **Accessibility & Compliance:** WCAG, ARIA, Governance, Auditability, Secure Development Practices
- **Design & Collaboration Tools:** Figma, Chrome DevTools, WordPress, JIRA, Confluence
- **Project Methodologies & Practices:** Agile, Scrum, Waterfall, SDLC, DevOps, Onsite-Offshore Coordination
- **IDEs & OS:** VS Code, IntelliJ IDEA, Eclipse, Cursor, Linux, Windows, macOS, PowerShell

PROFESSIONAL EXPERIENCE

Texas Tech University, Texas, United States
IT Technology Support

August 2023 – May 2025

- Developed intelligent, dynamic web interfaces using **React.js, Redux, and TypeScript**, integrating with AI-driven APIs and backend services to deliver personalized user experiences and boost performance by 70%.
- Designed and maintained reusable UI components using React, HTML5, TailwindCSS, and CSS3, ensuring compliance with **WCAG/ARIA accessibility standards** for 10,000+ users.
- Integrated AI-based form validation and natural language search using OpenAI APIs and Google Cloud AI, reducing support queries and improving user registration workflows.
- Implemented **TDD practices** using Jest and React Testing Library, achieving high test coverage and reducing production bugs by 25%.
- Optimized UI responsiveness with lazy loading, memoization, and conditional rendering, while supporting **distributed systems and multi-tier architectures**.
- Collaborated with product, UX, and compliance teams in Agile/Scrum ceremonies (sprint planning, backlog grooming, code reviews) to ensure applications were secure, reliable, and user-centered.
- Enhanced developer environments with ESLint, Cypress automation, and CI/CD workflows, contributing to **governance and best coding practices**.

Deloitte USI, Hyderabad, India

January 2022 – July 2023

Deloitte Consulting Analyst

- Built and deployed **production-ready dashboards and enterprise web applications** using React.js, Redux, and JavaScript, improving feature delivery speed by 25%.
- Designed interactive dashboards, billing portals, and usage charts integrated with backend **RESTful APIs and gRPC services**, increasing platform engagement by 20%.
- Integrated React frontends with AWS-hosted **Node.js and Java Spring Boot APIs**, reducing latency and improving responsiveness by 30%.
- Automated deployments with Jenkins, GitLab CI/CD, AWS EC2, and Vercel; contributed to **API framework development** enabling weekly rollouts with zero downtime.
- Advocated **TDD and automated testing practices**, raising unit test coverage to 85% and lowering post-release bugs by 22%.
- Contributed to a scalable **micro frontend and API architecture** using Context API, React Hooks, and reusable component libraries, streamlining reusability across teams.
- Partnered with technology peers on **serverless (FaaS) solutions and A2A services**, supporting pivot towards modern architectures.
- Designed and optimized relational data structures using PostgreSQL and SQL Server, aligning with enterprise standards.
- Collaborated with compliance and architecture teams to ensure solutions followed **governance and security best practices**.

Cognizant Technology Solutions, Chennai, India

January 2020 – October 2021

Software Development Intern

Programmer Analyst

- Migrated legacy healthcare dashboards to **modern, responsive UIs** using React.js, HTML5, TailwindCSS, and JavaScript, improving page load times by 40% and mobile usability.
- Built scalable frontend-backend workflows integrated with **Spring Boot APIs, WebSockets, and Redis**, improving response times by 18%.
- Optimized SQL queries on **Oracle and PostgreSQL databases**, accelerating backend response times by 30% and supporting enterprise reporting requirements.
- Maintained 90%+ frontend unit test coverage with Jest and React Testing Library to ensure stability in production deployments.
- Contributed to backend modernization with **AWS microservices, serverless (Lambda + API Gateway), and containerized workloads in Kubernetes**, improving scalability and modularity.
- Developed and executed automated test scripts using JUnit, TestNG, and Selenium to validate application reliability and compliance with requirements.
- Participated in Agile sprints, conducted demos, and collaborated with UX and clinical teams to deliver **user-centered and compliant solutions**.
- Used Git, GitLab, Docker, Jenkins, and Kubernetes to manage CI/CD workflows and **infrastructure components** across distributed systems.

EDUCATION

- | | |
|---|------------------------|
| • Master's Degree, Computer and Information Science Texas Tech University | August 2023 – May 2025 |
| • Bachelor's Degree, Electronics and Communication Sathyabama University | August 2016 – May 2020 |
