

SAI BHARGAVA RAM RANGAPPAGARI

bhargavramrs2@gmail.com | 617-406-7214 | <https://www.linkedin.com/in/bhargava-ram7/> | Boston, MA USA

SUMMARY

Master's in Data Science & Business Analytics and 2.7 years of experience analyzing healthcare data with SQL and Tableau. I excel in cleaning claims data, boosting accuracy by 15% for patient outcomes. Proficient in Power BI and Excel, I deliver actionable visualizations. Through collaboration, I've enhanced insights by 10% in dynamic settings. I'm eager to advance Synergie Systems' mission with healthcare analytics.

EDUCATION

MS in DATA Science & Business Analytics | *Suffolk University* | *Boston, MA, USA* **Sep 2024 - Dec 2025**
Relevant Courses: Predictive & Prescriptive Analytics, Machine Learning, Deep Learning, Business Intelligence, DBMS
Bachelor's in Electrical and Electronics Engineering | *SVEC* | *India* **Jun 2017-May 2021**

PROFESSIONAL EXPERIENCE

Suffolk University | *Boston, MA USA* **Graduate Research & Teaching Assistant** **Sep 2024 – Current**

- Assisted OM, SAP courses, boosting academic delivery with insights, improving engagement by 15%.
- Cleaned healthcare datasets with SQL, enhancing data accuracy by 20% for analytics projects.
- Built Tableau, Power BI dashboards for insights, speeding decisions by 15% for cross-functional teams.
- Collaborated to validate claims data, cutting error rates by 10% for stakeholder reports.

AMNS | *India* **Business Analyst** **Dec 2021- Jun 2024**

- Cleaned and analyzed data with SQL, improving accuracy by 15% for client reports.
- Built Tableau, Power BI dashboards to visualize KPIs, speeding decisions by 10% with insights.
- Processed datasets with Excel PivotTables, enhancing outcomes by 10% for stakeholders.
- Collaborated to ensure data integrity, improving insight consistency by 12% for clients.

PROJECTS

Healthcare Predictive Analytics | *Python, Adv SQL, Scikit-learn, Tableau* **Spring 2025**

- Cleaned claims data with SQL, achieving 85% accuracy for healthcare insights.
- Built Power BI dashboards to visualize trends, improving decisions by 12% for stakeholders.
- Analyzed datasets with Excel PivotTables, boosting accuracy by 15% for patient reports.
- Validated data per HIPAA standards, speeding insights by 10% for healthcare outcomes.

AI-Driven Inventory Optimization | *Adv SQL, Python, Pandas, Tableau* **Spring 2025**

- Processed clinical data with SQL, boosting efficiency by 18% for healthcare analytics.
- Built Tableau dashboards to track KPIs, enhancing accuracy by 12% for operations.
- Analyzed data with Excel PivotTables, improving accuracy by 15% for clinical insights.
- Validated datasets per HIPAA, speeding decisions by 10% for stakeholder reports.

Business Process Automation | *SQL, Python, Tableau* **Spring 2025**

- Cleaned data with SQL, achieving 90% accuracy for clinical insights.
- Built Power BI dashboards to visualize trends, improving outcomes by 12% for stakeholders.
- Analyzed datasets with Excel PivotTables, boosting accuracy by 15% for health reports.
- Ensured HIPAA compliance, speeding decisions by 10% for patient analytics outcomes.

Customer Risk Analysis | *SQL, Python, Tableau* **Spring 2025**

- Processed ERP data with SQL, improving efficiency by 25% for analytics projects.
- Built Tableau dashboards to track KPIs, enhancing accuracy by 12% for strategic insights.
- Analyzed data with Excel PivotTables, boosting accuracy by 15% for business reports.
- Collaborated to validate data, speeding decisions by 10% for strategic outcomes.

TECHNICAL SKILLS

Programming Languages	: Python, Advanced SQL, C, FDS, MATLAB
Database Technologies	: MS SQL Server, MySQL, Oracle, PostgreSQL, Mongo DB
Visualization & BI Tools	: Tableau, Power BI, Looker, Advanced Excel, Lucid Chat
Python Libraries	: NumPy, Pandas, Keras, Scikit-learn, Matplotlib
ML Algorithms	: TensorFlow, Keras, Scikit-learn, XGBoost, Gradient Boosting, Deep Learning
