

EDUCATION

University of Central Missouri

Aug 2023 - May 2025

Master of Science, Big Data Analytics & Information Technology

Coursework: Cloud Computing, Big Data Architecture, Data Management, Business Intelligence & Machine Learning.

Velagapudi Ramakrishna Siddhartha Engineering College

Jun 2017 - Jul 2021

Bachelor of Technology, Electronics & Instrumentation Engineering

Coursework: Instrumentation and Measurement, Process Control, Analog & Digital Electronics.

SKILLS

Programming Languages: C, Java, Python, C++

Tools & Technologies: PLC, MySQL, NoSQL, Power BI, Tableau, Apache Spark, Kafka, Hadoop, ETL, Snowflake, NumPy, Pandas, Machine Learning, Oracle, Aurora, Jira, Windows, MS Office.

Cloud Services: AWS (EC2, S3, cloud9, Redshift, AWS Glue, Athena, Elastic MapReduce, Kinesis, DynamoDB, Document DB)

Testing: Functional, Regression, Smoke, Automation, Apttus CPQ, Accelq.

PROFESSIONAL EXPERIENCE

Accenture Solutions Pvt Ltd | Custom Software Engineering Analyst

Oct 2021 - Jul 2023

- Designed, developed, and tested custom software solutions, providing primary support for application releases. Extensive experience in Salesforce CRM, functional, regression, smoke, automation, JIRA and Apttus CPQ testing.
- Created and executed test scripts, logged defects, led SIT and UAT, participated in technical reviews, and provided knowledge transfers.

PROJECTS

Social Media Sentiment Analysis System | Hadoop HDFS, NoSQL, Cloud, Tableau

- Implemented a scalable social media sentiment analysis system to process and analyze large volumes of content.
- Used APIs for data collection, HDFS for storage, MapReduce for processing, NoSQL for sentiment analysis and retrieval.
- Deployed on cloud-managed Hadoop clusters, offering interactive Tableau visualizations, auto-scaling, fault-tolerance.

Content Management System | JavaScript, Spring Boot, JSP, MySQL, Microservices, Command Prompt

- Developed a CMS application for managing blog data with key features including user registration, login and content management(add/edit/search/view).
- Used Spring Boot for service development and Java Server Pages (JSP) for dynamic web application creation.

E-Commerce Platform | JavaScript, Command Prompt

- Developed an E-Commerce platform with user registration, login, product browsing, cart management, and checkout functionalities, enhancing user experience and facilitating seamless online shopping.

A Multipurpose Agricultural Robot | C++, Arduino IDE

- Designed a robot using Arduino Mega 2560 to perform operations like digging, seeding, and spraying.
- Integrated sensors (DHT11) for humidity, temperature and moisture level monitoring, alongside the HC-05 Bluetooth module for wireless communication.
- Implemented solar panel integration for sustainable energy use, promoting environmental efficiency.

PUBLICATIONS

- A Multipurpose Agribot. *Lecture notes in mechanical engineering*, 327-334.

CERTIFICATIONS

- Salesforce Administrator (Credential ID: 2321606)
- Salesforce Platform Developer-1 (Credential ID: 2375997)
- Salesforce AI Associate (Credential ID: 5058918)
- Salesforce AI Specialist (Credential ID: 5069772)

INTERNSHIPS

- Completed a 45-day Industrial Automation program by APSSDC-SIEMENS at VR Siddhartha Engineering College.
- Completed a one-month Online Internship on Industrial IOT and Machine Learning with VI Solution, Bangalore.
- Completed one-week training in LABVIEW and MY DAQ in national instruments laboratory.
