

Sai Kumar Aliyana

HEALTHCARE DATA ANALYST

Jersey City, NJ | (551)-998-3786 | kumar.aliyana@hotmail.com

PROFESSIONAL SUMMARY

Results-driven **Healthcare Data Analyst** with **over 3 years of experience** in analyzing complex healthcare datasets, building ETL pipelines, and delivering actionable insights to improve patient outcomes and operational efficiency. **Skilled in SQL, Python, R, and cloud-based data solutions, with hands-on expertise in EHR/EMR data, claims analysis, population health, and cost optimization.** Proven ability to translate business requirements into robust analytics solutions, develop interactive dashboards using Power BI and Tableau, and support HIPAA-compliant data governance. Adept at collaborating with cross-functional teams to deliver data-driven strategies that enhance healthcare delivery and support strategic decision-making. Committed to leveraging technical and analytical expertise to drive measurable impact in healthcare organizations.

TECHNICAL SKILLS

Languages & Queries: SQL (Joins, CTEs, Window Functions), Python (Pandas, NumPy, Matplotlib, Seaborn), R (Basic)

Visualization: Power BI (DAX, Power Query), Tableau, Excel (Pivot Tables, Power Query), Google Data Studio

Healthcare Data Expertise: Claims & Utilization Data, Patient Outcomes Analytics, EHR/EMR Data, Population Health, Healthcare Cost Analysis

Analytics & Modeling: Forecasting, Time Series, Regression, Cohort Analysis, A/B Testing, Data Cleaning & Transformation

Databases & Cloud: Azure SQL, MySQL, PostgreSQL, Oracle DB, Google BigQuery

ETL & Tools: Alteryx, Apache Airflow, Talend, Excel Power Query

Collaboration: JIRA, Confluence, Azure DevOps, SharePoint, MS Teams

Compliance & Governance: HIPAA, Data Security, Healthcare Reporting Standards

PROFESSIONAL EXPERIENCE

Healthcare Data Analyst | UnitedHealth Group, NJ

Aug 2024 - Current

- Developed and optimized SQL queries and ETL pipelines to transform claims and EHR data into actionable insights, reducing report generation time by 30%.
- Built interactive Power BI and Tableau dashboards to track patient outcomes, utilization metrics, and cost trends, enabling leadership to make data-driven decisions.
- Conducted cohort analysis, regression, and time series forecasting to identify high-risk patient populations and recommend preventive care interventions.
- Partnered with cross-functional teams to standardize and validate healthcare datasets, ensuring HIPAA-compliant analytics processes and reliable reporting.
- Automated data extraction, transformation, and loading using Python and Azure SQL, improving operational efficiency and reducing manual errors.
- Performed root cause analysis on claim discrepancies, collaborating with business and clinical teams to resolve issues and improve data quality.
- Designed and implemented KPIs and performance metrics to monitor healthcare program effectiveness and support strategic planning.
- Supported ad-hoc analytics requests by developing reusable Python and R scripts, enabling faster turnaround on critical business questions.

Junior Data Analyst | HealthMinds Consulting, India

Sep 2020 - Nov 2022

- Assisted in ETL pipeline development and data validation for healthcare claims, utilization, and patient datasets, improving accuracy of client reports by 25%.
- Analyzed claims, EHR, and patient outcomes data using SQL, Python, and Excel, providing actionable insights to healthcare operations teams.
- Developed automated dashboards in Power BI to visualize population health metrics, reducing manual reporting effort and enabling real-time monitoring.
- Conducted cohort analysis and regression modeling to support healthcare cost optimization initiatives for multiple clients.
- Performed data cleansing, transformation, and quality assurance checks to maintain integrity of sensitive healthcare datasets.
- Collaborated with clinical and business teams to define KPIs, streamline reporting processes, and ensure regulatory compliance.
- Supported predictive modeling projects by preparing datasets, validating results, and documenting methodologies for internal teams.
- Assisted in HIPAA-compliant data governance and security practices while providing analytical support for client deliverables.

EDUCATION

Master of Sciences in Information Systems | Wilmington University, New Castle, DE
