

Sai Kumar Reddy Kodidi

Java Full Stack Developer

Texas, USA | Mail: kodidisaikumarreddy7ttv@gmail.com | Ph.:(940) 373-1778 | [LinkedIn](#)

PROFESSIONAL SUMMARY:

- Full Stack Java Developer with 4 + years of experience designing, developing, and deploying **secure, cloud-native, microservices-based** enterprise applications across **FinTech and Healthcare** domains.
- Expert in **Java 17, Spring Boot 3.x, Microservices, REST APIs, React 18, Angular 14, Docker, Kubernetes, AWS ECS/EKS, Azure AKS, CI/CD (Jenkins & GitLab), PostgreSQL, Hibernate, JPA, Kafka, Resilience4j, OAuth2, JWT, and Terraform (IaC)**.
- Delivered **AI/ML-driven analytics** for fraud detection and predictive risk modeling, increasing decision-making accuracy by 22 % while aligning with data-governance standards.
- Architected **auto-scaling, zero-downtime deployments** using Docker + Helm + Terraform across AWS and Azure, improving reliability 40 % and reducing release time 30 %.
- Ensured **HIPAA, PCI-DSS, FFIEC, ISO 20022, and Indian IT Act 2000** compliance with continuous audit readiness and 99.9 % service availability.
- Adept at **Agile & Scrum**, TDD/BDD automation (JUnit, Mockito, JaCoCo, Cucumber), and continuous improvement of DevOps pipelines.
- Passionate about integrating **AI and ML models** into financial risk, fraud analytics, and clinical decision support systems for future digital transformation.

TECHNICAL SKILLS:

Programming Languages: Java 17/11, JavaScript (ES6 +), TypeScript, SQL, PL/SQL, Shell Scripting

Backend Frameworks: Spring Boot 3.x, Spring Cloud Gateway, Spring Security, Spring Batch, Spring Data JPA, Hibernate ORM, Resilience4j, Apache CXF

Frontend Technologies: React.js 18, Redux Toolkit, Angular 14, HTML5, CSS3, Bootstrap 5, Tailwind CSS, Material-UI, Axios, jQuery

API & Web Services: RESTful APIs, SOAP, FHIR APIs, Open Banking Standards, ISO 20022 XML Parsing, EDI X12 (837/835)

Messaging & Streaming: Apache Kafka, Event-Driven Architecture

Databases: Oracle 19c, PostgreSQL, MongoDB

Cloud & DevOps: AWS ECS/EKS, Azure AKS, Docker, Helm, Terraform (IaC), Jenkins, GitLab CI/CD, Git, GitHub

Security & Compliance: Spring Security, OAuth2, JWT, LDAP, RBAC, TLS/SSL, AES-256 Encryption, HIPAA, PCI-DSS, FFIEC, Indian IT Act 2000

Testing & Quality: JUnit 5, Mockito, JaCoCo, Cucumber (BDD), SonarQube, WireMock

Monitoring & Logging: ELK Stack (Elasticsearch, Logstash, Kibana), AWS CloudWatch

AI/ML Tools: TensorFlow, scikit-learn (for fraud detection and predictive analytics integration)

Standards & Interoperability: FHIR, HL7, ICD-10, CPT, SNOMED CT, ISO 20022

Analytics & BI: Tableau (API Integration), Custom Financial Dashboards

Methodologies: Microservices Architecture, CI/CD Pipelines, Agile & Scrum, Blue-Green Deployment

PROFESSIONAL EXPERIENCE:

JPMorgan Chase – USA | July 2024 – Present

Full Stack Developer

- **Developed and delivered** mobile-responsive UIs using React 18, Redux Toolkit, and Bootstrap 5, enhancing digital onboarding UX by 40 %.
- **Architected** resilient microservices for loan origination and KYC using Spring Boot 3.x, Resilience4j, and Spring Security, achieving 99.9 % uptime under heavy transaction loads.
- **Reduced** transaction latency 37 % through Kafka-based asynchronous messaging and real-time account updates across distributed services.
- **Integrated** Temenos banking platform via ISO 20022 XML and Apache CXF SOAP services, streamlining cross-system transactions and ensuring FFIEC compliance.
- **Delivered** secure REST APIs for fund transfers and transaction histories, cutting API response times 25 % and supporting 10 K + daily transactions.
- **Deployed** containerized microservices on AWS ECS and Azure AKS using Docker and Helm, with **Terraform (IaC)** automating provisioning and reducing release time 30 %.
- **Engineered** AI-powered fraud and loan default risk models integrated into Spring Boot microservices, lowering potential loss exposure 22 %.
- **Collaborated** with data science teams to embed scikit-learn anomaly-detection APIs, providing real-time fraud flagging and audit traceability.
- **Implemented** RBAC, LDAP, OAuth2, JWT, and TLS encryption controls, achieving zero critical findings in annual PCI-DSS audits.
- **Automated** CI/CD workflows via Jenkins and GitLab CI/CD, enabling blue-green deployments and maintaining continuous delivery with 99.9 % availability.
- **Delivered** backend services exposing REST APIs to Tableau dashboards for liquidity analytics and regulatory reporting, accelerating decision-making by 35 %.

Cognizant– India | May 2020 – July 2023

Full Stack Developer

- **Developed** responsive healthcare portals using Angular 14 and TypeScript with Material-UI and Tailwind CSS, improving patient/provider satisfaction scores 30 %.
- **Optimized** claims processing 35 % using EDI X12 837/835 and Spring Batch while maintaining HIPAA compliance for protected health information.
- **Architected** scalable hospital information microservices on AWS ECS and Kubernetes, boosting system throughput 60 % and handling thousands of concurrent users.
- **Implemented** FHIR-compliant RESTful APIs with Java 17 and Spring Boot 3.x, enabling secure EMR/EHR interoperability between Epic and Cerner.
- **Configured** Apache Kafka for event-driven appointment scheduling and lab notification workflows, cutting processing time 25 %.
- **Enhanced** database performance 20 % using Hibernate and JPA optimizations on PostgreSQL and MongoDB back ends.
- **Strengthened** data security with Spring Security, OAuth2, JWT, RBAC, and AES-256 encryption, ensuring 100 % compliance in quarterly HIPAA audits.

- **Automated** CI/CD pipelines using Jenkins and Docker, achieving zero-downtime deployments and 30 % faster release cycles.
- **Implemented** centralized logging and monitoring through ELK Stack and AWS CloudWatch, enabling real-time alerting and audit traceability.
- **Explored** ML-based predictive diagnostic models for disease trend forecasting using TensorFlow, informing future AI integration in clinical analytics.

EDUCATION:

Master of Computer Science - University of North Texas, Denton, Texas, USA

Bachelor of Electronics and Communication Engineering - Sastra Deemed to be University, Tanjore, Tamil Nadu, India

CERTIFICATION:

AWS Certified Developer Associate - AWS

Full Stack Web Development - Udemy
