---

## SUMMARY

- Business Analyst with 3 years of experience in healthcare and IT sectors, specializing in process optimization, data-driven decision-making, and cross-functional collaboration.
- Skilled in gathering and documenting business requirements, conducting gap analysis, and mapping current vs. future workflows.
- Proficient in data analysis and visualization using Power BI, SQL, Python, and Tableau to deliver actionable insights and enhance reporting capabilities.
- Experience supporting AWS cloud migration initiatives, developing performance dashboards, and automating data pipelines to modernize analytics infrastructure.
- Strong knowledge of HIPAA regulations and healthcare systems with practical experience in claims automation and prescription refill workflows.
- Adept in Agile and Waterfall methodologies, supporting sprint planning, backlog grooming, UAT, and cross-functional communication through tools like Jira and Confluence.

## SKILLS

- **Business Analysis & Documentation:** Requirement Gathering, BRD, FRD, Use Case Development, Process Modelling, Workflow Design, User Stories, Gap Analysis, Impact Analysis, Business Case Development
- **Project Management & Methodologies:** Agile, Waterfall, SDLC, Stakeholder Management, Change Management, Risk Management
- **Data Analysis & Visualization:** Power BI, Tableau, Looker, Advanced Excel, SQL, Python
- **Cloud Platforms:** AWS
- **Data Analysis Techniques:** Data Cleansing, Data Wrangling, Statistical Analysis, Time Series Analysis, A/B Testing
- **Enterprise Tools:** Jira, Confluence, SAP, Microsoft Dynamics 365, Salesforce CRM
- **Business Process Improvement:** Root Cause Analysis, Lean Six Sigma, DMAIC, Process Reengineering, Continuous Improvement
- **Soft Skills:** Critical Thinking, Problem-Solving, Communication, Negotiation, Stakeholder Collaboration, Time Management, Presentation Skills
- **Healthcare & Compliance Knowledge:** HIPAA, EMR, EHR
- **Version Control & Collaboration:** Git, GitHub, Trello, Microsoft Teams
- **Other Tools:** Microsoft Visio, Lucidchart, ChatGPT

## WORK EXPERIENCE

### CVS Health

Jan 2025 – May 2025

#### Business Analyst Intern

- Spearheaded cross-functional requirements gathering with product managers, UX designers, and engineering teams to improve prescription refill workflows across mobile and web platforms.
- Developed comprehensive user stories and acceptance criteria in Jira by capturing stakeholder needs, ensuring clarity and alignment for Agile sprint cycles.
- Conducted gap analysis and current-state vs. future-state workflow mapping using Microsoft Visio and Lucidchart, ensuring scalable, HIPAA-compliant design.
- Analysed user engagement metrics via Power BI and Looker to identify pain points and present data-driven recommendations to executive leadership, improving feature adoption by 25%.
- Partnered with QA and UAT teams to validate functional enhancements and resolve defects prior to production deployment.
- Optimized business-technology alignment to support user-focused feature delivery, increasing prescription refill engagement by 20% after launch.

### Infosys

Jan 2021 – July 2023

#### Business Analyst

- Designed requirement-gathering frameworks and documentation standards to capture functional needs for migrating legacy analytics infrastructure to AWS.
- Developed detailed requirement artifacts to support the successful implementation of AWS cloud migration and enterprise data reporting.

- Executed detailed system gap assessments to evaluate differences between existing on-premise platforms and target AWS Redshift-based infrastructure.
- Transformed high-level business initiatives into actionable technical deliverables for data pipeline automation, metadata governance, and performance tracking dashboards.
- Used SQL and Python for data profiling, validation, and cleansing during the migration process, increasing data accuracy by 30%.
- Built real-time reporting dashboards in Power BI to streamline visibility into key business functions, resulting in a 45% improvement in report usability.
- Partnered with data governance and security teams to establish protocols aligned with HIPAA, GDPR, and corporate compliance policies.
- Facilitated UAT sessions, created test cases, and triaged defects with developers and QA analysts, accelerating go-live readiness.
- Optimized data processing efficiency by redesigning cloud architecture and automating analytics delivery, resulting in a 40% latency reduction.

## PROJECTS

### Healthcare Claims Workflow Automation

**Tools:** SQL, Tableau, Visio, Jira, HIPAA

- Analysed existing claims processing workflows and identified automation opportunities to streamline operations and improve efficiency.
- Created detailed BRDs, user stories, and process diagrams while ensuring HIPAA compliance; collaborated with dev and QA teams using Jira for Agile delivery.

### Sales Forecasting Dashboard for Retail CRM

**Tools:** Salesforce, Power BI, Python, Agile

- Developed a dynamic Tableau dashboard integrated with Salesforce CRM to visualize sales trends and support data-driven sales forecasting.
- Conducted data analysis using Python to identify seasonal patterns and guided stakeholders through scenario planning, enhancing decision-making in quarterly reviews.

## EDUCATION

### Master in Computer Information Systems

Florida Institute of Technology — Melbourne, Florida, USA | GPA: 3.90

**Aug 2023 – May 2025**

### Bachelor in Electronics and Communication Engineering

Malla Reddy Engineering College (Autonomous) — Hyderabad, India | GPA: 8.01 / 10

**Jul 2018 – Jun 2022**
