

SAI KUSHAL ATHULURI

Saint Louis, MO 63108 | +1-984-330-2660 | athulurisaikushal@gmail.com

PROFESSIONAL SUMMARY

Full Stack Engineer with dual masters and hands-on experience of 5+ years in developing scalable software solutions using Java, Python, HTML, CSS, and JavaScript. Adept at full software development lifecycle and collaborating in Agile environments to deliver secure, user-friendly web applications. Proven ability to integrate and deploy data-driven systems, showcasing strong problem-solving and communication skills.

EDUCATION

Saint Louis University

Master of Science, Information Systems

Aug 2023 - May 2025

EXPERIENCE

DXC Technologies

Full Stack Developer

Nov 2023 - Aug 2025

United States

- Engineered an e-commerce platform with a React.js front end and a Node.js backend, significantly improving user experience and boosting customer engagement by 45%.
- Optimized the ClaimScape application in .NET using C# and VB.NET, reducing SQLSERVER 2019 execution time by 20% and notably improving performance and stability.
- Implemented AWS Lambda and API Gateway to enhance scalability and reduce costs by 20%, while developing a C# application that improved MSSQL Server integration speed by 30%.
- Integrated Git Flow CI using Bitbucket and automated testing, achieving a 60% reduction in deployment time.
- Utilized Mongo DB with Mongoose to refine data storage and retrieval processes, enhancing query performance by 30%. Created extensive unit and integration tests using Jest and Enzyme, ensuring over 90% code coverage, leading to improved code quality and fewer production issues.
- Optimized system performance by resolving bottlenecks with ELK and FastAPI, improving load times by 35%, and produced Crystal Reports for better business insights.

Humana

Full Stack Java Developer

Jun 2019 - Aug 2023

Hyderabad

- Created an internal project management tool using Angular for the front end and Spring Boot for the back end, streamlining task assignments and improving team collaboration, which increased project completion rates by 30%.
- Developed an automated testing framework using Python and Selenium, enabling cross-browser testing that reduced testing time by 70% and improved coverage across all supported browsers.
- Enhanced reporting efficiency by 50% with a D3.js dashboard, driving informed stakeholder decisions through effective data visualization.
- Implemented a user authentication system with OAuth2.0 and Spring Security, reducing unauthorized access by 40%, and integrated STRIPE APIs for payment processing, lowering transaction failures by 15%.
- Streamlined deployment with GitLab CI/CD, reducing issues by 30% and built a scalable microservices inventory system with Docker and Kubernetes, cutting deployment time by 50%.
- Facilitated Agile stand-ups and retrospectives via JIRA, enhancing team communication and project tracking.

PROJECTS

AI-Assisted Patient Communication

Jan 2025 - May 2025

- Conducted vendor analysis and selected AI-powered solutions to automate patient communications and reduce clinical burnout.
- Leveraged Power BI, NLP, and EHR integration insights to improve healthcare outcomes, operational efficiency, and HIPAA compliance.

MOCRA T-Drive to SharePoint Migration

Jun 2024 - Aug 2024

Missouri Center for Advanced Religious and Spiritual Studies

- Led migration of departmental files to SharePoint for the Missouri Center for Advanced Religious and Spiritual Studies.
- Performed data analysis, permission audits, and automated transfer using PowerShell and ShareGate, enhancing security and collaboration.

AI-Powered Hourly Attendance System

Nov 2022 - Apr 2023

- Developed facial recognition-based attendance tracking using AWS Rekognition, EC2, and DynamoDB.
- Enabled real-time logging and improved accuracy while reducing manual tracking effort.

Curfew E-Pass Management System

Aug 2021 - Nov 2021

- Created an automated system for issuing travel permits with secure workflows and QR code verification.
- Used HTML, CSS, JavaScript, PHP, and MySQL to improve application speed and reduce manual intervention.

SKILLS

- **Programming Languages:** Java, Python, C++, JavaScript, PHP, R, SQL, HTML, CSS
- **Cloud Technologies:** AWS (EC2, S3, Lambda, API Gateway, DynamoDB, RDS, IAM, CloudWatch)
- **Databases:** MySQL, MongoDB, DynamoDB, SQL Server, PostgreSQL
- **Web Development:** React.js, Node.js, RESTful APIs, Responsive UI Design, Angular, NestJS, HTML5, Spring Boot, Bootstrap
- **DevOps & Automation:** PowerShell, AWS CodePipeline, CodeDeploy, GitHub, CloudFormation, Docker, Kubernetes, Jenkins, Azure Devops, Terraform, Cloud formation
- **Machine Learning & AI:** TensorFlow, scikit-learn, XGBoost, NLP, CNN, SHAP, Computer Vision
- **Project Management:** JIRA, Trello, Agile Methodology, Scrum Methodology, CI/CD, Lean Process

CERTIFICATIONS

- **Certified AWS Certified Developer:** AMAZON - MAR 2025
- **Certified Full-Stack Web Applications with Rust and Leptos:** LinkedIn - MAY 2025
