■ EXPERIENCES

Business Analyst

Nike | Dallas, TX

August 2023 – Present

- Data Analysis & Reporting: Developed and maintained comprehensive dashboards and reports using tools such as Tableau and Power BI, enabling stakeholders to track key performance indicators and make data-driven decisions.
- Conducted in-depth analyses of market trends, consumer behaviour, and sales data, providing actionable insights to improve product positioning and marketing strategies.
- Partnered with marketing, sales, and supply chain teams to identify and resolve business challenges through data analysis and strategic recommendations.
- Led Agile project teams through iterative development cycles, ensuring timely delivery of key project milestones.
- Streamlined data collection and reporting processes, resulting in a 20% increase in operational efficiency and reduced report generation time by 15%.
- Led and contributed to several high-impact projects, including the rollout of new data management systems and enhancements to existing analytical tools.

Business Data Analyst

Accenture | Hyderabad, India

June 2019 – June 2021

- Collaborated with clients to understand their business challenges and provided data-driven recommendations to improve operational efficiency and decision-making.
- Utilized tools such as Tableau, Power BI, and Excel to create interactive dashboards and reports, translating complex data into clear, actionable insights.
- Analyzed business processes and identified areas for improvement, implementing solutions that led to a 25% reduction in operational costs for key clients.
- Developed and maintained reports and dashboards that provided actionable insights to management and facilitated data-driven decision-making.
- Led multiple projects, managing timelines and deliverables, and coordinating with cross-functional teams to ensure successful implementation of data solutions.

Business Analyst Intern

Krify Technologies | Kakinada, India

May 2018 - July 2018

- Led a team project to analyze sales data for a local business, utilizing Excel and Python for data cleaning and visualization.
- Created a comprehensive dashboard in Tableau to present findings & recommendations, which led to a 10% improvement in sales forecasting accuracy.
- Presented analysis results to professors and peers, receiving positive feedback for clarity and actionable insights.
- Collaborated with team members to ensure accurate data interpretation and alignment with project goals.

■ PROJECTS

Optimizing Retail Supply Chain Operations Through Data Analytics, UTD

- Utilizing Python and Tableau to analyze sales and inventory data, resulting in 20% reduction in inventory costs and improved stock management.
- Designed and managed a supplier performance enhancement initiative, resulting in a 25% increase in delivery timeliness.

Customer Behavior Analysis, UTD

- Executed Python to analyze ecommerce customer data, revealing insights that enhanced engagement strategies.
- Implemented predictive analytics to identify key customer trends, guiding more effective marketing initiatives.

Dynamic Sales Performance Visualization Dashboard, UTD

- Developed a Dynamic Sales Performance Dashboard using BI tools, providing insights into sales metrics, trends, and performance across regions and products.
