- **Collaboration & Documentation Tools:** Microsoft Office Suite, Google Workspace, SharePoint, Slack, Zoom, Microsoft Teams, Confluence
- **Customer Relationship Management (CRM):** Salesforce, Zoho CRM
- **Business Analytics & Strategy:** KPI Analysis, Customer Segmentation, Market Research, Forecasting, A/B Testing, Predictive Analytics
- **Data Governance & Compliance:** Data Privacy, GDPR, SOX Compliance, Regulatory Reporting

PROFESSIONAL EXPERIENCE

Business Analyst (Data & Reporting), Allianz Life Insurance, | Remote, USA

03/2024 – Present

- Collaborated with marketing, actuarial, and product teams in Agile sprints to refine segmentation models, integrate new data sources, and align strategies through FRD and BRM, enhancing targeting and personalization for Allianz Life's marketing campaigns.
- Analyzed large-scale customer transactions and demographic data using SQL, Power BI, and DAX to segment policyholders by behavior and engagement, increasing segmentation accuracy by 25% and driving actionable insights for marketing and retention strategies.
- **Elicited and documented business requirements** with front-end teams to enhance client-facing tools; led **A/B testing** and **UAT**, boosting digital engagement by 25% and automating reporting with Excel and BRM to reduce manual effort by 40%
- Automated manual reporting workflows using Excel + BRM, achieving a 40% time reduction and standardizing operational reporting for cross-site teams.
- Built interactive Power BI dashboards to visualize KPIs such as retention and claims frequency, integrated real-time data validation to reduce discrepancies by 30%, and delivered analytical reports via Power BI, Excel, and JIRA—leading to a 15% increase in campaign engagement and 10% better resource allocation.

Associate Business Analyst, Standard Chartered Bank | Remote, India

01/2021 – 06/2023

- Directed a process optimization initiative for the account opening workflow using BPMN, diagnosing bottlenecks and refining procedures to cut opening time by 20% while ensuring alignment with business and regulatory standards
- **Facilitated requirements gathering** and collaborated with compliance, IT, and operations teams to capture stakeholder insights, streamline feedback loops by 25%, and accelerate decision turnaround across departments.
- Implemented Lean Six Sigma and RPA solutions to eliminate 12% of non-value-added steps, automate 35% of manual activities, and reduce human errors by 10%, delivering a 15–20% boost in process efficiency and capacity.
- Authored detailed process maps and Tableau dashboards to monitor performance metrics, presenting findings that increased operational efficiency by 30%, reduced errors by 8%, and enhanced customer satisfaction by 12%.
- Participated in **pilot testing** of new digital onboarding solutions across multiple branches, gathering performance data and presenting insights to senior management.

PROJECTS

AI-Powered Demand Forecasting System – Walmart | Management Information Systems

- Built ML-driven forecasting models to optimize inventory and minimize stockouts; created dashboards to visualize metrics and support strategic inventory decisions.

Sprint Design – Wikipedia | Systems Analysis and Design

- Led sprint planning and requirements prioritization using Agile methodologies, collaborating with cross-functional teams to enhance Wikipedia's UX and functionality, increasing user engagement and community participation.

Web-Based Platform | Information Systems Project

- Gathered requirements and designed “Donate It,” a real-time scheduling and inventory management platform for blood donation logistics, improving coordination between donors and hospitals
