## Business Intelligence Developer

### Business Intelligence & Data Analyst | BI Developer | Data Insights Consultant

**A**nalytical **Business** and **Data Analyst** with **4 years** of experience in AI Integration, business intelligence, data analysis and software development. Skilled in bridging business and technical teams, optimizing processes, and delivering actionable insights using AI Services, Tableau, Power BI, Python and SQL.

- **Microsoft Certified: Azure AI Engineer Associate (AI-102)**, displayed proficiency in building and deploying AI models, integrating Cognitive Services.

**Skills:** AI Model Development and Deployment, Cloud AI Integration, Azure Bot Service.

## WORK EXPERIENCE

**Robotic Process Automation LLC - Denton, TX**

03/2025 - PRESENT

### Business Intelligence Developer

Designed and developed end-to-end solutions by building data pipelines, integrating AI insights, and creating interactive dashboards to drive data-informed decision across business functions.

- Built 15+ Power BI dashboards, improving decision-making speed by 30%.
- Integrated Azure Machine Learning models into BI reports for predictive sales and churn analysis and embedded NLP sentiment analysis into dashboards using OpenAI and Python.
- Migrated Excel reports to Power BI, saving 20+ hours weekly.
- Integrated LLMs like GPT-4 and Gemini to automate insights in Power BI dashboards.
- Created real-time KPI dashboards, boosting stakeholder visibility.
- Created and designed charts in Power BI using Python for in-depth statistical analysis.

**Lanco Global Systems - Irving, TX**

11/2023 - 01/2025

### Business Analyst

Led end-to-end development and delivery of scalable Tableau-based business intelligence solutions, transforming raw data into actionable insights to drive strategic decisions and productivity.

- Developed Tableau dashboards that improved sales reporting speed by 35%.
- Defined user stories for integrating LLM-powered chatbots in BI reporting tools.
- Authored BRD, FRD, data mapping, project charters, stakeholder analysis, user stories, and process maps using UML and MS Visio.
- Managed user stories, epics, and tasks in Jira, improving sprint velocity and Agile delivery.
- Led UAT by creating test cases for Tableau reports, achieving 98% accuracy.

**Pristen IT Systems - Temple, TX**

02/2023 – 10/2023

### **Laravel Developer (Intern)**

Developed and maintained scalable Laravel web applications, implementing core features like user authentication, API integrations, and database optimizations to support business requirements.

- Developed and maintained 5+ dynamic web applications using Laravel framework, improving application performance by 20%.
- Built RESTful APIs, cutting manual data entry time by 30%.
- Collaborated with a 4-member team to speed project delivery by 15%.
- Created reusable Laravel modules, cutting dev time by 18%.

**Techorbit Inc - Hyderabad, India**

01/2019 – 12/2020

### **Junior Software Analyst**

Led requirement analysis and coordination between stakeholders and developers to ensure timely delivery of software that meets business needs.

- Documented business and technical specifications for development teams.
- Created SQL queries and reports to track application performance.
- Participated in agile ceremonies to support timely project delivery.
- Analyzed software requirements to enhance system functionality.

## **EDUCATION**

---

**University of North Texas - Denton, TX**

Masters of Science - Business Analytics, Dec 2022

**SRK Institute of Technology – India**

Bachelor of Technology – Computer Science & Engineering, May 2019

## **PROFESSIONAL SKILLS**

---

- **Business Intelligence & Visualization:** Tableau, Power BI, Excel, SAS
- **Data Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn), R
- **Documentation & Modelling:** Microsoft Visio, Lucid chart
- **Project Management:** Jira, MS Project, Git
- **Databases:** SQL, MySQL, PostgreSQL
- **Cloud & APIs:** AWS, Azure, REST APIs, Postman, OpenAI APIs
- **Development & Scripting:** Java, PHP, Laravel, HTML5, CSS3, JavaScript
- **AI/ ML:** Azure AI Services, Azure Databricks (ML workflows), RAG
- **LLMs:** GPT-4, LLaMA, Gemini

## **CERTIFICATION**

---

- **Microsoft Certified: Azure Data Engineering Associate (DP-203)**, demonstrated expertise in designing and implementing scalable data solutions, including data pipelines, storage, and analytics using services like data factory, azure synapse analytics.
