

Sai Sasya Sunke

Data Analyst

MO | 801-214-1539 | saisasyas00@gmail.com | <https://www.linkedin.com/in/sai-sasya-sunke-8b2aa3214/>

SUMMARY

Data Analyst with 3+ years of experience leveraging advanced analytics, **SQL**, **Python**, and data visualization tools to deliver actionable business insights across healthcare and technology domains. Proven track record in building robust **ETL pipelines**, optimizing data workflows, and creating real-time dashboards using **Tableau** and **Power BI**. Skilled in statistical modeling (R), big data processing (**Apache Spark on AWS**), and risk mitigation through data quality validation. Adept at working in **Agile** and **Kanban** environments, collaborating cross-functionally to enhance project efficiency, reduce operational costs, and influence strategic decisions. Strong communicator with a history of presenting complex data insights to senior stakeholders and driving high-impact outcomes, including a \$500K client win and 25% error reduction in healthcare claims data.

SKILLS

Methodologies: Scrum, Kanban, Risk Management, Stakeholder Management
Languages: Python, R, C, SQL, SAS
Packages: NumPy, Pandas, Matplotlib, SciPy, Seaborn, Ggplot2
Visualization Tools: Tableau, Power BI, Microsoft Excel, QlikView, Google Analytics
Cloud Platforms: AWS, Google Cloud Platform (GCP), Azure
Big Data Technologies: Hadoop, Hive, Apache Spark, Databricks
ETL Tools: Informatica, Talend, Alteryx
Reporting Tools: SAS BI, Cognos, Business Objects
Database: MySQL, SQL Server, MongoDB, Snowflake
Other Skills: Data Cleaning, Data Wrangling, Critical Thinking, Problem-Solving, Communication, Presentation
Project Management: JIRA, Trello, MS Project, Budgeting, Timeline Management, Cross-functional Collaboration

EDUCATION

Master of Science in Applied Computer Science May 2025
Southeast Missouri State University

EXPERIENCE

Cigna, MO | Nov 2024 - Current | Data Analyst

- Utilized **Scrum** methodology to manage data analysis projects, collaborating with cross-functional teams to deliver actionable insights within tight sprint timelines, improving project delivery efficiency by 20%.
- Developed complex **SQL** queries in **MySQL** to extract and analyze healthcare claims data, identifying cost-saving opportunities that reduced operational expenses by 15%.
- Leveraged **Python** with **Pandas** and **NumPy** to clean and transform large datasets, ensuring data accuracy for predictive modeling and reporting.
- Created interactive dashboards in **Tableau** to visualize patient enrollment trends, enabling stakeholders to make data-driven decisions for resource allocation.
- Applied **Risk Management** principles to assess data quality risks in claims datasets, implementing validation checks that reduced errors by 25%.
- Conducted **Stakeholder Management** by presenting analytical findings to senior leadership, translating complex data into clear, actionable recommendations.
- Used **JIRA** for project tracking and timeline management, ensuring on-time delivery of analytics projects while coordinating with IT and business teams.

Infinite Infolab, India | Jan 2021 - July 2023 | Data Analyst

- Implemented **Kanban** methodology to streamline data processing workflows, reducing report generation time by 30% through continuous task prioritization.
- Built statistical models in **R** using **Ggplot2** for data visualization, uncovering key customer behavior trends that informed marketing strategies.
- Designed and executed ETL pipelines using **Informatica** to integrate data from multiple sources into **Snowflake**, improving data accessibility for analytics teams.
- Developed real-time dashboards in **Power BI** to monitor business KPIs, enhancing decision-making for product development teams.
- Utilized **Apache Spark on AWS** to process large-scale customer datasets, optimizing data pipelines for faster query performance.
- Enhanced **Data Wrangling** processes by creating reusable **Python** scripts, automating data cleaning tasks, and saving 10 hours of manual work weekly.
- Collaborated with cross-functional teams using **Trello** for project management, ensuring alignment on project goals and timely delivery of analytics solutions.
- Delivered data-driven presentations to clients, leveraging **Communication** and **Presentation** skills to secure a \$500K project by demonstrating actionable insights.
