SUMMARY

Data & Business Analyst with a Master's in Data Science and hands-on experience in data analysis, business process improvement, KPI reporting, and dashboard development. Skilled in **SQL, Python, Power BI, and Tableau**, with working knowledge of cloud platforms (**AWS, Azure**). Adept at **requirements gathering, data validation, stakeholder communication, and workflow automation**. Proven ability to deliver actionable insights that reduce decision-making time, improve reporting accuracy, and drive operational efficiency. Seeking entry-level analyst roles to leverage technical expertise and business acumen in data-driven decision making.

TECHNICAL SKILLS

Programming & Databases: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL, MySQL, ETL Pipelines, Pinecone Vector Databases, Web-Scraping

Visualization & Reporting: Power BI (DAX, Data Modeling), Tableau, Excel (PivotTables, Power Query, Advanced Formulas)

Business Analysis: Requirements Gathering, Gap Analysis, KPI Tracking, Process Documentation, UAT, Agile/Scrum, Workflow Automation

Cloud & Tools: AWS (EC2, S3, Redshift), Microsoft Azure (AZ-900), JIRA, GitHub Actions, Google Workspace, MS Office

Analytics & Methods: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Modeling, Predictive Analytics

WORK EXPERIENCE

Generative AI & Data Analyst Intern - OASIS | Dallas, TX

June 2025 - Present

- Improved GenAI model accuracy by **10%** through advanced data preprocessing, embedding generation, and integration with **Pinecone vector database** for efficient semantic search and retrieval.
- Designed and deployed **autonomous AI agents** to interact with Pinecone, enabling **real-time document retrieval and contextual response generation**. Applied **prompt engineering** and fine-tuning techniques to enhance LLM outputs for domain-specific tasks.
- Built **SQL and Excel-based analytics reports** to monitor system performance and dataset quality, supporting better data-driven decisions.
- Collaborated with cross-functional stakeholders to **define KPIs and ensure data quality**, aligning technical outputs with business objectives.
- Authored **requirements documentation and SOPs** for AI workflows, supporting knowledge transfer and scalable adoption.

Operations Analyst - Compass Group USA | Arlington, TX

August 2023 - May 2025

- Administered and validated large operational datasets, ensuring consistency and reliability across business reporting. Optimized scheduling processes by leveraging advanced **Excel functions and Power BI dashboards**, enhancing efficiency and leadership visibility.
- Performed **workflow analysis** to identify gaps and implemented process improvements that strengthened operational accuracy.
- Partnered with finance and operations leaders to deliver **actionable insights** that supported strategic workforce and resource planning.

PROJECTS

Medical Report Summarizer | Streamlit, Google Gemini API, PyMuPDF, Python

- Developed a web-based application with **Streamlit and Gemini API** to generate AI-driven medical report summaries, reducing manual review effort.
- Implemented **PDF text extraction and automated structured summaries** with PyMuPDF for patient-friendly interpretation. Integrated the **Gmail API** to securely deliver reports, streamlining healthcare communication workflows.

Resume-JD Semantic Matching System | SBERT, Hugging Face Transformers, Python

- Engineered a semantic similarity model to **match resumes with job descriptions**, improving candidate-job fit analysis.
- Measured accuracy using labeled ground truth and cosine similarity metrics.

Operational Efficiency & Workflow Streamlining | Excel (VLOOKUP, PivotTables), Power BI, SQL

- Designed interactive dashboards for workforce scheduling and **KPI tracking**.
- Reduced allocation errors by **12%** and improved leadership's visibility into resource performance.

Customer Churn Prediction | Python, SQL, Tableau

- Developed a machine learning model on 20K+ records to predict churn with **85% accuracy**. Created **Tableau dashboards** for executives, enabling targeted retention strategies.

EDUCATION

The University of Texas at Arlington

Master of Science, Data Science | GPA: 3.6

Arlington, Texas

May 2025

KL University

Bachelor of Technology, Computer Science and Engineering | GPA: 3.64

Guntur, India

April 2023

CERTIFICATION

Data Visualization : Storytelling [Certificate](#) | Agile Specialization [Certificate](#) | Microsoft Certified :Azure Fundamentals(AZ-900) [Credly](#)
