

Sai Teja Emmadishetty Data Analyst

teja.emmadishetty@workwebmail.com | (720) 869-0551 | USA | [Linkedin](#)

Summary

Strategic and results-driven Analyst with 3+ years of experience translating complex datasets into actionable business insights. Proficient in SQL, Python (Pandas, NumPy, SciPy), Power BI, and Tableau to drive data visualization, reporting automation, and workflow optimization. Adept at uncovering trends through advanced analytics, including customer segmentation, financial modeling, and risk assessment. Proven ability to collaborate cross-functionally in Agile environments, influence business decisions, and deliver measurable impact through data-driven strategies that enhance operational efficiency, ROI, and stakeholder confidence.

Technical Skills

- Programming Languages:** Python (Pandas, NumPy, SciPy, Matplotlib), R (dplyr, ggplot2), SQL (CTEs, Window Functions, Subqueries)
- Data Visualization Tools:** Power BI (DAX, custom visuals), Tableau (LOD expressions), Looker, Excel (PivotTables, INDEX-MATCH, Power Query), PowerPoint
- Data Analytics & Modeling:** A/B Testing, Customer Segmentation, K-means Clustering, Forecasting, Time Series Analysis, PESTLE & SWOT Analysis, KPI Dashboards
- Cloud Platforms:** AWS (EC2, S3 basics), Microsoft Azure (Data Factory, Synapse basics), Google BigQuery (basic exposure)
- Databases & ETL:** Snowflake, SQL Server, MySQL, PostgreSQL, dbt (Data Build Tool), Azure Data Studio
- Data Validation:** Data cleaning, transformation, deduplication, distinct count checks, anomaly detection
- Workflow & Project Management:** Agile, Scrum, Jira, Azure DevOps, Confluence, Git
- Tools & Technologies:** Jupyter Notebooks, VS Code, Microsoft 365 Suite, Slack, Zoom, Microsoft Teams

Professional Experience

Data Analyst, JPMorgan Chase & Co. 10/2024 – Present | Remote, USA

- Delivered actionable insights to support credit risk analysis and financial decision-making across the Consumer and Community Banking portfolio, enabling improved risk mitigation strategies and more informed leadership decisions.
- Extracted and analyzed high-volume customer and transaction data using SQL and Python to uncover behavioral trends, anomalies, and risk patterns, supporting deeper insight into consumer credit profiles.
- Built and maintained interactive Power BI dashboards to monitor key risk metrics, delinquency trends, and customer credit profiles, helping managers access timely insights and make data-backed decisions.
- Implemented data validation checks across financial datasets to ensure accuracy and compliance with audit standards, reducing reporting discrepancies by 15 percent.
- Conducted PESTLE analysis on economic and regulatory factors affecting retail banking operations, supporting more accurate forecasting and smarter resource allocation decisions.
- Presented analytical findings to senior stakeholders, influencing policy adjustments and strategic initiatives that contributed to a 20 percent increase in portfolio ROI.
- Collaborated with credit strategy, product, and compliance teams within an Agile environment to deliver timely analytical solutions aligned with business goals and risk management frameworks.
- Automated financial reporting using advanced Excel functions such as pivot tables, VLOOKUP, and INDEX-MATCH, reducing manual errors by 20 percent and saving significant time.

Data Analyst, Wipro 01/2020 – 12/2022 | Hyderabad, India

- Used Python (Pandas, NumPy) and SQL to clean, transform, and analyze large datasets, improving data quality by 30 percent and speeding up reporting timelines.
- Built interactive Tableau dashboards using LOD expressions to visualize KPIs, customer trends, and campaign performance, improving stakeholder insight and decision-making.
- Implemented customer segmentation with K-means clustering, increasing targeting precision by 15 percent and boosting customer retention by 10 percent.
- Collaborated with global clients in banking and retail to deliver analytics solutions that enhanced operational efficiency and business insights.
- Automated recurring reporting processes, reducing manual effort by 25 percent and ensuring consistent, on-time delivery of analytics reports.
- Partnered with cross-functional teams in an Agile environment to align data solutions with business goals and client needs across technical and non-technical stakeholders.

Education

Master of Science in Information Systems

University of Colorado Denver

01/2023 – 12/2024 | Denver, USA

Bachelor of Technology in Computer Science Engineering

Sreyas Institute of Engineering and Technology

06/2018 – 09/2022 | Hyderabad, India

Google data analytics - Certificate
