WORK EXPERIENCE

LTI MINDTREE (formerly L&T Infotech)

Chicago, IL

Business Analyst

Jan 2023 – Present

- Created complex SQL queries to extract information from large datasets, reducing the time spent on data analysis by 50%.
- Collaborated with cross-functional teams, including product owners, operations, and analytics professionals, to identify key analytics needs.
- Developed interactive data visualizations using Tableau & Power BI to present complex findings and insights, resulting in a 20% increase in data comprehension among stakeholders.

UIC COLLEGE OF MEDICINE

Chicago, IL

Business Analyst - Student Graduate Hourly

Aug 2022 – Dec 2022

- Worked closely with cross-functional teams to identify data warehouse requirements, assess data source compatibility, and implement solutions that met the reporting needs.
- Actively contributed to the design, development, essential metrics, business reports, and dashboards.
- Crafted 10 user-friendly dashboards with Tableau and Power BI, boosting data-driven decisions and enhancing reporting accuracy by 20%.

UI HEALTH

Chicago, IL

Data Analyst - Student General Office Assistant

Oct 2021 – May 2022

- Extracted and transformed data from SQL database to validate data and perform descriptive analysis to identify business trends.
- Performed exploratory data analysis on patients' data by using Python to transform data and impute outliers.
- Preprocessed data in Python to reduce redundancy by 11% to avoid bias and generate accurate statistics using DAX and Excel.
- Built complex data sets in SQL for higher synergy and interpretation of various statistical inferences across multiple domains.

SPURTREE TECHNOLOGIES

Bengaluru, India

Quality Assurance Engineer

Oct 2020 – Jul 2021

- Spearheaded & performed testing, validating functionality, and ensuring compliance with quality standards.
- Identified, documented, and assessed 300+ software bugs, resulting in a 40% reduction in customer support issues and improved customer satisfaction scores by 15%.

INTERSHIPS

CDK GLOBAL

Hoffman Estates, IL

Product Management Intern

Jun 2022 – Aug 2022

- Composed product backlog with 90% completion rate for 15 epics, 45 features, and 50+ user stories.
- Conducted Agile ceremonies, contributing to sprint planning and refining the backlog in a collaborative environment.
- Proficiently transformed complex metrics, KPIs, operational, and user interface preferences into actionable insights, enhancing project outcomes and facilitating informed decision-making.

SKILLS

Programming Languages: SQL, R, Python.

Libraries & Packages: Pandas, NumPy, Matplotlib, Tidyverse

Tools: PowerBI, Tableau, JIRA, Confluence, MS Project, Word, Advanced Excel, Visio, ALM, TestRail, Figma

Core Competencies: Data Modeling, Machine Learning, Data Analysis Data Science, ETL, Data Visualization, Critical thinking, Problem solving.

EDUCATION

UNIVERSITY OF ILLINOIS AT CHICAGO

Chicago, IL

Master of Science in Business Analytics

Dec 2022

NIE INSTITUTE OF TECHNOLOGY

Mysuru, India

Bachelor of Engineering in Electronics and Communication Engineering

Jul 2020

PROJECT EXPERIENCE

Epileptic Seizure Detection | Python

- Analyzed and interpreted large datasets using Python libraries such as Pandas and NumPy, resulting in a 60% increase in data accuracy.
- Performed EDA to identify trends and patterns causing seizures and identified the suitable model for large data.

Customer Order Management | SQL

- Created an RDMS with tables, indexes, stored procedures, joins, aggregate functions, case conditions, and sub-queries to handle inventory details.
- Created and mapped each table with one another using one-to-one, one-to-many and many-to-many relationships.
