PROFESSIONAL SUMMARY

Data Analyst with expertise in SQL, Python, R, and Power BI for data analysis, visualization, and business intelligence. Strong background in data processing, KPI analysis, and report automation. Microsoft Power BI Data Analyst Associate certified, with a proven ability to enhance data integrity, business reporting, and stakeholder insights. Passionate about leveraging big data analytics to improve operational efficiency and strategic planning.

EDUCATION

Missouri University Of Science And Technology

Rolla, MO

M.S. in Computer Science | GPA - 3.12/4.0

May 2025

Bharath Institute Of Higher Education And Research

Chennai, India

B.tech in Computer Science | GPA - 9.12/10

May 2023

EXPERIENCE

Python Developer Intern

May. 2022 – Sep 2022

Internshala

Chennai, India

- Developed and optimized Python-based applications, utilizing Object-Oriented Programming (OOP) principles.
- Connected to SQLite Databases and created data-driven applications with PyQt for GUI development.
- Engineered, tested, and deployed dynamic web applications, significantly improving user experience and functionality.

PROJECTS

Pizza Store Sales Analysis | Power BI,SQL

Dec 2024 – Jan 2025

- Designed interactive dashboards using Power BI, enabling strategic decision-making by visualizing key performance indicators (KPIs) such as sales growth rate, order trends, and profit margins.
- Conducted data analysis and trend identification, leading to a 40% improvement in sales visibility. Optimized inventory strategies, reducing stockouts by 20% and improving overall operational efficiency.

Database Normalization | Python,Pandas,Numpy,SQL

Oct 2023 – Nov 2023

- Analyzed and structured large datasets, applying database normalization techniques to optimize data storage and retrieval.
- Reduced storage costs by 15% by restructuring and optimizing database tables for efficient data management.

Machine learning classifiers to detect offensive language | Python,Machine Learning

Sep 2022 – Apr 2023

- The Decision Tree classifier demonstrated superior performance in crime prevention analysis, achieving higher accuracy, precision, recall, and correctly classified instances, making it the most effective model among evaluated classifiers enhancing content moderation processes.
- Delivered actionable insights to stakeholders, reducing content moderation time by 30%

TECHNICAL SKILLS

Languages: Java, Python, C, SQL (Oracle), JavaScript, HTML/CSS, R

Frameworks: React, Node.js,**ETL:** Apache Airflow,**Visualization:** Power BI

Developer Tools: Git, AWS (EC2, S3), VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse

Libraries: pandas, NumPy, Matplotlib, Seaborn, ggplot, plotly

HONORS AND ACTIVITIES

- Certification in Microsoft Power BI Data Analyst Associate
- HackerRank (Problem-Solving) ,HackerRank (SQL - Intermediate),HackerRank (SQL - Basic)
