

JANGALA RAMU SAILOHITHA

Tallahassee, Florida | +1 (850) 405-8043 | sj23j@fsu.edu

Portfolio: <https://lohitha-jangala.jimdosite.com>

OBJECTIVE STATEMENT

Passionate about leveraging AI to transform raw data into actionable insights that drive innovation and decision-making. Focused on predictive analytics and trend identification to unlock growth opportunities through strategic, data-driven insights, while collaborating with teams to push the boundaries of data analytics.

PROFESSIONAL EXPERIENCE

Business Analyst | Florida Commerce Department of IT | Tallahassee | FL **JAN 2025 - Present**

Spearhead enterprise initiatives through advanced process mapping and requirements gathering, while orchestrating stakeholder-IT collaboration for large-scale applications. Lead development of technical documentation and process improvements utilizing Microsoft Suite/Visio for enterprise solutions. Mentor team members in project management methodologies while implementing quality standards to enhance organizational competitive edge.

INTERSHIPS

Data Analyst Intern | Domi Station | Tallahassee | FL **AUG 2024 – DEC 2024**

Creating interactive dashboards, conducting data analysis, and maintaining accurate records. Collaborating cross-functionally to prepare reports and communicate technical concepts for data-driven decision-making.

Research Intern - Gen AI | FSU | Department of Chemistry & Biochemistry, under Dr. Bin Ouyang **MAY 2024 – DEC 2024**

AI Intern | Young Minds | Tirupati | India **MAY 2022 – SEP 2022**

Developed expertise in AI, focusing on facial feature detection and chatbot development. Analyzed project data, created visualizations, and utilized Python for various tasks.

ACADAMIC QUALIFICATION

Master's in Data Science - Computer Science | GPA: 4.0/4.0 **2023 - 2025**

Florida State University | Tallahassee, Florida, USA

- Relevant Coursework:** Machine Learning, Data Mining, AI, Applied Regression Methods, Mathematics for Data Science, Advanced Data Science, Projects for Data Science and Professional Development Seminar.

Bachelor of Technology, Computer Science and Engineering **2019 - 2023**

JNTUA College of Engineering Kalikiri | Kalikiri, Andhra Pradesh, India.

PAPER PUBLICATION

Facial Feature Extraction and Emotional Analysis Using Machine Learning **DEC 2022**

Innovative research in the International Journal combines attentional convolutional networks and YOLOv5 for facial feature recognition, achieving a 96% success rate in discerning user emotions through super-resolution reconstruction.

KEY PROJECTS

Temporal-Spatial Attention Fusion Mechanism for High-Dimensional Time Series Forecasting **FEB 2024**

Developed a temporal-spatial attention fusion model for high-dimensional time series forecasting using PyTorch, achieving a 23% increase in accuracy and a 36% reduction in computation time compared to standard LSTM models. Leveraged Apache Spark for real-time data processing and analysis, and Tableau to critical forecasting trends and anomalies.

Detection of Anomalous Behavior in Smartphones using Change Point Analysis and ML Algorithms **MAY 2023**

Engineered smartphone malware detection using power data analysis. Implemented Change Point Analysis, SVMs, Decision Trees, XGBoost, and AdaBoost. Built website for system, improving accuracy and efficiency.

SKILLS

Languages: Python, R, C, SAS, MATLAB and SQL.

Software: Jupyter, Google Collab, Open CV, VS Code, Amazon Sage Maker, R Studio, Excel, SPSS, KNIME.

Expertise: Predictive Analytics, Statistical Modeling, Data Mining, Time Series Analysis, ETL Processes, A/B Testing, Databricks Data Wrangling, Data Visualization, Deep Learning, Gen AI, Transformer Model, LLM, Generative Adversarial Networks (GAN), Variational Autoencoders (VAE), GNN, Fine tuning, Deep Learning, Machine Learning, Applied Regression, Transfer Learning.

Tools: Google Analytics, Apache Spark, Hadoop, BigQuery, Kubernetes, Docker, Pydantic, Git, LangChain, LlamaIndex, Hugging Face, Tableau, AWS (S3, Redshift, Bedrock), Microsoft Azure, Keras, PyTorch, Tensor flow, Power BI.

CERTIFICATIONS

Certified for successful completion in **Data Visualization with Python from IBM** **SEP 2022**

Certified by **Salesforce** for completion of Salesforce **Developer Virtual Internship** **NOV 2022**

Earned **Microsoft Technology Associate** certifications in **Azure Data and Security Fundamentals**. **NOV|JUNE 2022**

Certified from the National Programme on Technology Enhanced Learning (NPTEL) in "**Python for Data Science**" with a silver badge

Completed **Python, AI, and Data Analytics** from My Captain, securing certificates and LOR for each workshop.

Earned **Outstanding Performance Certificate** in Machine Learning Internship at Verzeo ML, completing five projects in a month with high prediction accuracy. **SEP 2021**
