

Sai Manoj Cheruvu

Java Full Stack Developer

Boston, MA | +1 (857) 269 8349 | manoj@jobitmail.com | [Leetcode](#) | [GitHub](#) | [Medium](#)

SUMMARY

- Java Full Stack Developer with 3+ years of experience in designing, developing, and deploying high-performance applications using SDLC, Agile, and Waterfall methodologies.
- Well-versed in backend technologies, including Core Java, Java 8/11, and J2EE components like Servlets, JSP, JSTL, JavaBeans, JDBC, and Java Mail.
- Proficient in frameworks like (Spring Boot, MVC, Security), Hibernate, and Microservices, delivering scalable and secure solutions.
- Experience in front-end development with HTML, CSS, JavaScript, TypeScript, Bootstrap, jQuery, AJAX, JSON, XML, and modern frameworks like React.js, Angular, Vue.js, and Node.js.
- Good knowledge of cloud environments, leveraging AWS services (EC2, VPC, S3, CloudFront, ELB), Azure, and Apache Tomcat for efficient application deployment and management.
- Hands-on expertise in database technologies, including MySQL, PostgreSQL, Oracle, SQL Server, and MongoDB, ensuring optimal data handling and integration for enterprise-grade applications.

SKILLS

Methodology: SDLC, Agile, Waterfall

Languages: Core Java, Java 8/11, SQL

Frameworks: Spring (MVC, Boot, Security), Microservices, Hibernate, JPA, JSF, React.JS, Vue.JS, Node.JS, Angular.JS

IDEs: NetBeans, IntelliJ IDEA, VS Code, Eclipse

J2EE Technologies: Servlets, JSP, JSTL, JavaBeans, JDBC, Java Mail

Web Technologies: HTML, CSS, JavaScript, TypeScript, Bootstrap, jQuery, Ajax, JSON, XML

Cloud Technologies: AWS (VPC, EC2, S3, CloudFront, ELB, Redshift), Azure, GCP

Application Server: Apache Tomcat, IBM Web Sphere

Databases: MySQL, SQL Server, PostgreSQL, Oracle, MongoDB

Version Control/Other Tools: Git, GitHub, GitLab, Maven, Gradle, Jira, Jenkins, Junit, MS Excel, JMeter

Operating Systems: Windows, Linux, Mac

EXPERIENCE

State Street, USA | Java Full Stack Developer

Jan 2024 - Present

- Updated project workflows and task management using Jira, enhancing Agile sprint execution and fostering better collaboration across development teams.
- Developed interactive and user-friendly front-end interfaces using React.js, HTML, and CSS, leading to improved user satisfaction and engagement metrics.
- Industrialized dynamic and interactive web applications using TypeScript and ReactJS, enhancing front-end performance and delivering a seamless user experience.
- Implemented robust back-end functionality using J2EE technologies, including Servlets and JSP, to ensure seamless server-side operations for web applications.
- Optimized relational database systems like PostgreSQL to streamline data management processes, improving query performance and storage efficiency.

Groovy Web, India | Java Full Stack Developer

Jan 2020 - Jul 2022

- Contributed to all stages of the Software Development Life Cycle, including requirement analysis, design, coding, and testing, delivering high-quality applications following the Waterfall model.
- Leveraged Hibernate for ORM in the persistence layer, optimizing database interactions and boosting data retrieval performance by 35%, reducing application latency.
- Designed and deployed scalable Web APIs using Node.js, ensuring 99.9% uptime in high-demand environments and enhancing system scalability by 40% with load-balanced deployments.
- Architected and implemented over seven cloud-hosted solutions on AWS, utilizing services such as EC2, S3, VPC, CloudFront, ELB, and Redshift to ensure 99.9% availability while reducing cloud infrastructure costs by 20%.
- Utilized TypeScript's strong typing capabilities to improve code quality, reduce runtime errors, and ensure maintainability in large-scale applications.
- Built modular and maintainable web and distributed applications using JSP, Servlets, and JavaBeans, increasing system flexibility and maintainability by 30%.
- Optimized HTML and CSS code to improve page load times by 15%, contributing to better overall site performance.
- Created RESTful APIs and instigated microservices architecture, reducing response times by 30% and enhancing overall application scalability and maintainability.

EDUCATION

Master of Science in Computer Science | University of Massachusetts, Boston, MA

May 2024

CERTIFICATIONS

AWS Certified Cloud Practitioner: Amazon Web Services | AWS Certified Developer Associate: Amazon Web Services
