PROFESSIONAL EXPERIENCE

Software Engineer Intern | Futeur.AI, New York, NY

August 2024 - January 2025

- Spearheaded the development of a fintech platform to deliver credit insights and growth tools for small businesses; led Agile sprints managed two developers, and contributed full stack using NestJS and React.
- Deployed a payment and billing management RestAPI system using StripeAPI, PrismaORM, and PostgreSQL with one-to-many user-payment method relationships, allowing users to subscribe to monthly plans, manage payments, and view invoices through a streamlined UI.
- Coordinated with backend developer to integrate 3 credit scores from Equifax and Experian with Axios, rendered report on a feedback-driven credit meter with report downloads; cached data with Query and passed throughout app with Redux, reducing load time by 52%
- Collaborated with backend developer to streamline OTP for forgot-password and account verification; streamlined a refresh-token flow for secure API access and a full-stack user event log with admin search/filtering, reducing troubleshooting time by 63%.
- Facilitated API to update user and business details, and delivered a mobile-friendly UI implemented by TailwindCSS and Bootstrap, which enabled seamless management and updates processed in under 400ms.

Software Engineer Intern | 99 YARDS, New York, NY

January 2024 - July 2024

- Architected backend APIs with Spring Boot for a mobile job board and networking platform, supporting end-to-end functionality and Agile sprints — contributing to a 35% increase in user onboarding within the fashion industry.
- Coordinated with a senior developer to compose REST APIs with Firebase for job posting and filtering — allowing companies to publish listings, users to discover roles, and increasing engagement and job matches by 30%.
- Established global exception handling and error logs across 10+ REST APIs. Integrated secure authentication and storage with Firebase, and validated endpoints via Postman to ensure performance, reliability, and data consistency.
- Redesigned and launched a mobile-optimized company website in React while partnering with a web developer, integrated sleek UI, animations, and a sponsor carousel, increasing site traffic by 62% and boosting brand engagement.

PROJECTS

PlaySync: play-sync-sigma.vercel.app

March 2025 - May 2025

- Collaborated in a 4-person Agile Scrum team to develop PlaySync, a social gaming platform using React, Express, and Firebase; led weekly standups and managed a feature backlog to drive iterative development.
- Pioneered friend management, live chat, and community posting features; integrated Steam, Riot, and IGDB APIs to sync multi-platform game libraries, display reviews, and surface purchase links in a centralized gaming dashboard.

Shopora-API: shopora-api.onrender.com/api/docs

February 2025 - March 2025

- Engineered a NestJS backend for a social marketplace with PostgreSQL (TypeORM) and MongoDB, Dockerized for deployment; implemented secure REST APIs with JWT authentication, Role-Based Access Control, and strict DTO-based data validation.

Tweetly: sajal03.pythonanywhere.com

April 2024 - May 2024

- Co-developed a Twitter-style platform using Flask, JavaScript, HTML/CSS, and Bootstrap; enforced a “remember me” login, post, and reply functionality, and media uploads via AWS S3. Used DynamoDB for scalable user and post-data management.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C#, R

Web Frameworks: React, Node.js, Next.js, Express.js, NestJS, FastAPI, Flask, Spring Boot

Databases & Cloud: PostgreSQL, MySQL, SQLite, MongoDB, Firebase, DynamoDB, Google Cloud

Tools & DevOps: Git, Docker, AWS, PrismaORM, Postman, Selenium, Pytest, jQuery

Styling & UI: HTML / CSS, TailwindCSS, Bootstrap

EDUCATION

Pace University, Seidenberg School of Computer Science & Information Systems

New York, NY

Bachelor of Science (BS) in Computer Science | **GPA:** 3.50 / 4.00 (Cum Laude)

May 2025

Relevant Coursework: Network & Distributed Computing, Software Engineering, Web Development, Object-Oriented Programming, Game Development, Operating Systems & Architecture, Data Structures & Algorithms, Computer Organization, Data Science
