

Sajjad Sabahuddin

Data Scientist

sajjad.s@worksemails.com | 346-543-7071 | Fremont, CA

SUMMARY

- Data Scientist with 4+ years of expertise in data extraction, modeling, wrangling, statistical analysis, and machine learning.
- Experienced in SDLC, Agile, and Waterfall methodologies, facilitating efficient project management and delivery.
- Skilled in various machine learning algorithms and predictive modeling techniques, including Regression Models, Decision Trees, XGBoost, Random Forests, Sentiment Analysis, Naïve Bayes Classifier, and SVM.
- Proficient in engineering and deploying Generative AI models on multi-GPU setups, with skills in model fine-tuning, optimization, and distributed computing for scalable AI solutions.
- Understanding machine learning algorithms, including regression, decision trees, neural networks, and natural language processing (NLP).
- Skilled in data visualization tools like Tableau, Power BI, and Excel, crafting insightful visualizations to support data-driven decision-making.
- Experienced with cloud platforms (AWS, GCP) and database systems (MySQL, SQL Server, Oracle, MongoDB), providing comprehensive data management and analytics solutions.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Language: Python, R, SQL, SAS

IDEs: Visual Studio Code, PyCharm, Jupiter Notebook

Statistical Methods: Hypothetical Testing, ANOVA, Time Series

Machine Learning: Regression analysis, Bayesian Method, Decision Tree, Random Forests, Support Vector Machine, Neural Network, Sentiment Analysis, K-Means, KNN, Classification, SVM, Naive Bayes, Natural Language Processing (NLP), LLM, CNN, XGBoost

Frameworks: LangChain, Retrieval-Augmented Generation (RAG)

Packages: NumPy, Pandas, Matplotlib, SciPy, ggplot2, Scikit-Learn, PyTorch, TensorFlow, Keras, Spark

Visualization Tools: Tableau, Power BI, Microsoft Excel

Cloud Technologies: AWS, GCP, Azure

Database: MySQL, SQL Server, Oracle, MongoDB, Vector Database (Pinecone, ChromaDB), Graph Database (Neo4j)

Software/Other Skills: Jira, Data Cleaning, Data Wrangling, Critical Thinking, Communication Skills, Presentation Skills, Problem-solving, Decision-Making, EDA, Communication Skills, Databricks, Data Visualization, Predictive Analytics, Pattern Recognition, JMP, Data Integrity, Quantitative Data, Data Science, Statistics, Statistical Analysis, Data Analytics, Data Modeling, Big Query, Snowflake

Operating System: Windows, Linux

EXPERIENCE

State Street, USA | Data Scientist

Jan 2024 - Current

- Leveraged Agile methodologies to adapt swiftly to changing project requirements and deliver iterative, high-quality solutions.
- Executed hypothesis testing to assess variable relationships, facilitating data-driven decision-making with empirical evidence.
- Crafted detailed visualizations using ggplot2 in R, adhering to the grammar of graphics for clear and insightful data representation.
- Applied Natural Language Processing (NLP) techniques to refine customer satisfaction strategies and improve engagement.
- Developed dynamic dashboards and reports in Tableau, transforming complex datasets into actionable insights for stakeholders.
- Enhanced data integration by analyzing Cloud SQL and connecting Python with Google BigQuery, reducing data transfer times to microseconds.
- Engineered and deployed a Collaborative Filtering-based recommender system on an AWS EMR cluster, significantly enhancing user experience and personalization.
- Implemented machine learning algorithms like XGBoost, SVM, and LLM to extract patterns and generate precise predictions.
- Refined MySQL database schema, optimizing data storage, retrieval efficiency, and scalability for better performance.

Ivview Labs Pvt Ltd, India | Data Scientist

Jan 2019 - July 2022

- Executed comprehensive testing and validation of data science models and solutions before deployment, employing a structured approach aligned with Waterfall methodology to ensure quality and reliability.
- Seamlessly integrated Databricks into existing data pipelines, working closely with cross-functional teams to optimize data processing and analytical workflows.
- Applied advanced time series analysis and supervised and unsupervised learning algorithms (including LLM) to extract actionable insights from large, complex datasets.
- Designed and optimized deep learning models using PyTorch and TensorFlow, including custom architectures, to enhance model accuracy and performance.
- Integrated Power BI with MS Excel and diverse data sources, automating report generation to ensure real-time data updates and accuracy.
- Developed deep learning models with Keras (including LSTM) to drive industrial decision-making and enhance operational processes.
- Utilized AWS EC2 instances to enable scalable and efficient data processing, model training, and inference, dynamically adjusting to fluctuating computational requirements.
- Implemented comprehensive backup and recovery strategies for SQL Server databases, ensuring high data availability and resilience against system failures.

EDUCATION

Master of Science in Computer Science | California State University, San Marcos, CA

Bachelor of Engineering in Computer Science and Engineering | Osmania University, Hyderabad, Telangana
