EDUCATION

Master of Science in Information Technology Management

Jan 2023 - Dec 2024

Webster University | Tx, USA

Bachelor of Technology in Civil Engineering

May 2018 - May 2022

Anurag Group of Institutions | Hyderabad, India

Relevant Coursework: Construction Planning, Construction Cost Analysis, Project Management, Infrastructure Asset Management, Construction Data Modeling, Data Science for CEE, AI in Construction, Finance for Engineering Management, Estimation & Costing.

WORK EXPERIENCE

Project Coordinator – Maruthi Building Planner, Suryapet, Telangana, India

May 2022 – Dec 2022

- Effectively managed procurement and delivery for multiple residential and commercial projects using Procore and Microsoft Project, ensuring that materials and resources were delivered on time and within budget.
- Tracked and documented RFIs, submittals, and change orders within Procore, improving collaboration between contractors, clients, and internal teams, and reducing approval delays by 20%.
- Monitored project budgets and progress using Power BI, Advanced Excel, and SQL, providing data-driven insights that contributed to a 15% increase in annual profits.
- Coordinated with vendors for cement and steel materials, negotiating strategically to achieve a 10% cost reduction while maintaining quality and timely deliveries.
- Streamlined reporting and document control using Procore and Smartsheet, improving workflow efficiency and providing clear visibility to all project stakeholders.

Site Engineer - SNM Associates, Suryapet, Telangana, India

March 2021 -Apr 2022

- Assisted in managing residential construction projects, coordinating site activities to ensure safety, quality, and design compliance.
- Prepared designs, plans, and elevations for villas using AutoCAD and Civil 3D, improving precision in grading, layouts, and site planning.
- Developed and tracked project schedules using Microsoft Project, coordinating materials, resources, and subcontractors.
- Conducted quantity take-offs and cost estimation using Bluebeam Revu and Advanced Excel, supporting budget management and preventing overruns.
- Maintained daily progress and inspection reports in Smartsheet.

SKILLS & SOFTWARE

- Primavera P6, Microsoft Project, Power BI, Bluebeam Revu, Advanced Excel, SQL, MS Access, Tableau, Microsoft Office Suite, Procore, AutoCAD, Civil 3D.
- Project Scheduling, Cost Tracking, Vendor Coordination, Budget Monitoring, Dashboard Development (Power BI), Procurement Support.

CERTIFICATIONS

- OSHA 10-Hour Construction Safety and Health Certification from the U.S. Department of Labor
- Procore Certified: Product Certification – Engineer from Procore Technologies
- Procore Certified: Project Manager – Core Tools (General Contractor) from Procore Technologies
- Certified Civil 3d Designer — GHMC Hyderabad

PROJECTS

- Interactive dashboard to track and monitor the cost and work done using Power BI** | Developed an interactive Power BI dashboard to track and monitor costs and work progress for a residential construction project of 12 villas (G+1, 2200 sq.ft. each).
- Seismic Analysis of Multi-Storey Buildings with and without Floating Columns** | ETABS Performed seismic analysis of RC multi-storey buildings using Equivalent Static, Response Spectrum, and Time History methods. Analyzed story displacement, inter-story drift, and story shear to evaluate the impact of floating columns on structural stability and seismic performance.
