

SAKSHI MANTRI

Milwaukee, WI, USA | +1 (414) 317 3744 | mantriksakshi@gmail.com

PROFESSIONAL SUMMARY

Computer Science Graduate with experience in Data Analysis, Python, SQL, and Power BI. Skilled in Machine Learning, Cloud tools, and delivering data-driven solutions in collaborative settings.

EXPERIENCE

Hotel of the Arts Days Inn & Suites, Milwaukee, Wisconsin | Business Strategy and Operation Intern Aug 2025 – Present

- Monitored program and operational KPIs related to revenue, service levels, and customer satisfaction to assess overall business health.
- Created standardized templates and reporting frameworks to track trends, monthly objectives, and execution priorities.
- Supported strategic planning by interpreting data patterns and communicating insights to non-technical stakeholders.
- Assisted leadership with ad-hoc analyses to evaluate operational changes and improvement initiatives.

Dezignolics, Maharashtra, India | Data Science Intern Feb 2021 – Apr 2021

- Conducted data analysis on 911 emergency calls, identifying top zip codes, townships, and call reasons, supporting strategic resource allocation and improving emergency service coverage.
- Cleaned and preprocessed raw call data, ensuring accuracy and consistency for analysis.
- Designed interactive data visualizations using Matplotlib and Seaborn to represent emergency trends, enabling data-driven planning decisions.
- Collaborated with stakeholders to interpret findings, translating complex data into clear, actionable recommendations.
- Compiled findings into a report and presented key takeaways to the team, highlighting data-driven decision-making strategies.

SKILLS

Data Analysis & Reporting: SQL (MySQL, SQL Server), Excel (Pivot Tables, VLOOKUP, KPI tracking), Python, R

Visualization Tools: Power BI, Tableau, Matplotlib, Seaborn

Marketing Analytics Techniques: KPI tracking, campaign performance analysis, segmentation, trend analysis

ETL & Data Management: Data cleaning, transformation, reporting automation

Programming & Tools: Python, Java, C, C++, R, AWS, Git, MongoDB, HTML/CSS/JavaScript

Collaboration & Communication: Data storytelling, stakeholder reporting, cross-functional teamwork

PROJECTS

Sales Performance Dashboard – Personal Project | Excel Apr 2025

- Designed an interactive dashboard to track monthly sales performance, top product categories, and KPIs.
- Used Pivot Tables, conditional formatting, and slicers to enable dynamic filtering by category and date.
- Delivered insights on underperforming segments, informing budget allocation and marketing focus.

Vehicle Safety Analysis – Personal Project | Python, Pandas, Matplotlib, Seaborn Mar 2025

- Merged and analyzed datasets on complaints, recalls, and investigations to uncover product performance issues.
- Created visual reports to track complaint patterns over time, similar to monitoring campaign trends.
- Provided recommendations to improve safety outcomes, reflecting best practices in data-driven policy change.

Reddit Sentiment Analysis – University Project | Python, PRAW, NLTK, VADER Apr 2024

- Extracted social media data using APIs to measure sentiment on trending topics.
- Applied NLP techniques to identify shifts in public opinion, with applications in brand and market research.
- Produced sentiment trend charts for quick stakeholder interpretation.

EDUCATION

Master's in Computer Science Sep 2023 - May 2025

University of Wisconsin-Milwaukee

GPA – 3.49/4.0

Bachelor's in Computer Engineering

University of Mumbai, India

Sep 2018 - May 2022

GPA – 3.40/4.0
