EDUCATION

Master of Science in Business Analytics

Expected May 2025

Arizona State University | Tempe, Arizona

GPA: 4.0 / 4.0

Courses – Business Process Analytics, Machine Learning, AI and Data Analytics Strategy, Quantitative Analysis, Risk management.

Bachelor of Technology in Instrumentation and Control Engineering

May 2024

Minor Specialization in Computer Science Engineering

GPA: 3.8 / 4.0

Nirma University | Ahmedabad, Gujarat

TECHNICAL SKILLS

- **Programming/ Data Tools:** Python (Pandas, Numpy, Scikit-Learn, TensorFlow, PySpark), R, SQL (MySQL), Jupyter Notebook, Excel
- **Analytics:** Data Visualization (Power BI, Tableau), A/B Testing, ETL, Statistical Analysis (ANOVA, EDA, Sig Sigma)
- **Machine Learning:** Regression, Classification, Clustering, SVM, Random Forest, Model Deployment, Feature Extraction
- **Deep Learning:** NLP (NLTK, BERT, Keras), RNN, CNN, Computer Vision, Cross-Validation, Hyperparameter Tuning
- **Cloud/ Databases:** AWS, ETL Pipelines, Data Warehousing, Relational Database Management, Snowflake
- **Business:** Agile, Stakeholder Communication, CRM Systems, ERP Systems, MS Office, Project Management

WORK EXPERIENCE

National Industries for the Blind

Virginia, USA

Business Data Analyst – Capstone Project

January 2025 – May 2025

- Developing a modular Python-based framework to analyze sales fluctuations by decomposing pricing, volume, and product mix impacts; resulting in a 15% improvement in forecast accuracy at the Line-of-Business level.
- Integrating CRM data to assess customer behavior trends, retention rates, and sales pipeline efficiency, providing actionable insights for strategic revenue growth.
- Collaborating with cross-functional teams including Sales, Marketing, and Operations, to align data-driven insights with organizational goals aimed at boosting employment and revenue opportunities for the blind.

ZestiniT Solutions Pvt Ltd

Mumbai, India

Data Analyst Intern

December 2023 – August 2024

- Constructed ETL data pipelines using SQL and Python to transform performance data, boosting operational efficiency by 20%.
- Designed reports and dashboards in Tableau to visualize attendance trends and enable real-time decision making.
- Conducted predictive analysis on absenteeism trends, resulting in a 15% decrease in unplanned absences and higher workforce productivity.

L&T Hydrocarbon Engineering Ltd

Mumbai, India

Operations Analyst Intern

May 2023 – August 2023

- Contributed to Saudi Aramco's oil and gas plant project by streamlining workflows via process mapping and gap analysis, reducing redundancies by 25%.
- Spearheaded the development of BRDs and functional specifications for project tracking software, enabling 15% increase in completion rate.
- Redesigned reporting workflows using SQL and Python, cutting manual effort by 40% and improving data accuracy.

ACADEMIC PROJECTS

Sign Reader for Visually Impaired Students

March 2025 – May 2025

- Leveraging OpenCV and Python to enhance OCR model performance, including data preprocessing, error analysis, and accuracy tracking across varied real-world inputs.
- Applying business analysis techniques to assess system usability, scalability, and potential impact, contributing to roadmap planning for broader deployment in educational institutions.

Designing an AWS Based Supply Chain Risk Analytics Solutions

January 2025 – March 2025

- Built a real-time supply chain risk model in AWS SageMaker, boosting supplier risk visibility and cutting disruptions by 30%.
- Integrated real-time scoring with dashboards using AWS Lambda and API Gateway, cutting mitigation time by 40% through automated insights delivery.

Sales Forecasting & Profitability Analysis

September 2024 – November 2025

- Built a forecasting model for sales and revenue trends using SQL and Power BI, enhancing inventory planning accuracy by 92%.
- Created interactive dashboards and KPI trackers to support executive-level data storytelling and insights.

LEADERSHIP AND ACHIEVEMENTS

- Advanced Power BI Certification
- Market Research Quantitative Certification
- Led the planning and execution of exhibitions, cultural events, and technical workshops for the ISA Students' Chapter, showcasing automation innovations and facilitating industry networking for 100+ students.
