EXPERIENCE

CORE Health & Fitness, USA — Customer Support Technician

JUNE 2024 - Present

Overseeing a high volume of technical support inquiries, I ensured timely resolution of client requests by prioritizing and troubleshooting issues efficiently, adhering to industry best practices to maintain optimal service quality. I proactively identified opportunities for process improvements, leading to faster case closures and higher customer satisfaction. My role involved generating detailed reports on ticket metrics, providing insights to enhance team performance. Additionally, I collaborated with cross-functional teams to streamline service delivery, support special projects, and consistently exceed customer expectations.

Apis Productions, USA — Support Manager

JANUARY 2024 - JUNE 2024

Managing the workflow and prioritization of client requests ensures timely and effective resolutions, while adhering to industry best practices to maintain high service quality. I conducted regular performance evaluations, offering constructive feedback to enhance team execution. My role involved developing and presenting detailed reports on ticket metrics to improve processes and collaborating with cross-functional teams to boost service delivery and client satisfaction.

Apis Productions, USA — Jr. Web Developer

MARCH 2023 - JANUARY 2024

Contribute to the development of websites using WordPress as a base, and leverage tools such as PHP and JavaScript for custom implementations are a few of the responsibilities as a Jr. Web Developer. Additionally, I play a key role in the ongoing maintenance of our websites, ensuring they function optimally and meet the needs of our customers.

Apis Productions, USA — IT Support Technician

MARCH 2021 - JANUARY 2024

Managing technical issues, optimizing infrastructure and maintaining constant communication with the team and clients are my main responsibilities. I use systems like Monday, Slack, and Zendesk for efficient communication and quick resolution of requests. My versatile approach and commitment to excellence ensure effective and exceptional technical service for our clients.
