Employment History

Patriot Growth Insurance Services | Associate Software Developer February 2023 – April 2024

- Developed and maintained clean code using C#, while ensuring high-quality software solutions.
- Created a portal using C#, JavaScript, and Bootstrap for contracted clients. The portal consisted of user information, API bugs, and user permissions.
- Created detailed reports using SQL Server Reporting Services, enhancing data-driven decision-making.
- Identified large trends within large data sets by removing duplicates to ensure data consistency.
- Created data-driven reports using Microsoft Office, Microsoft Power BI, and Tableau.
- Collaborated with developers to identify and resolve software bugs, improving application stability.
- Designed, developed, and tested web applications, delivering robust and user-friendly solutions.
- Generated monthly reports with advanced Excel functions, providing critical business insights.

Skechers | Retail Sales Associate July 2021 – December 2021

- Assisted customers with product inquiries, selections, and purchases, enhancing their shopping experience.
- Promoted reward programs and exceeded sales targets, generating \$5k in additional revenue.
- Processed transactions, returns, and exchanges efficiently, adhering to company policies.
- Maintained store cleanliness and organization, contributing to a welcoming environment.
- Consistently delivered excellent customer service, achieving high satisfaction ratings.
- Generated monthly reports using Microsoft Excel for inventory and sales.

The Borgen Project | Political Affairs Intern June 2021– September 2021

- Engaged with Congressional staff to advocate for poverty-reduction legislation, enhancing policy support.
- Achieved fundraising targets, increasing financial support for key initiatives.
- Encouraged constituents to contact Congress, boosting legislative backing for critical issues.
- Drafted letters of support, influencing political leaders and media coverage.
- Contributed insights during team meetings, aiding in strategic decision-making.
- Generated monthly reports using Microsoft Excel for the number of times Congressional leaders legislated bills.
