PROFILE

Python Developer | AI/ML Engineer | Applied AI Graduate (STEM)

Master's graduate in Applied Artificial Intelligence with 2+ years of Python development experience across U.S. and India. Skilled in machine learning model development, data-driven solutions, and scalable system design. Delivered an AI forecasting system with 30% improved accuracy and a deep learning model achieving 95% classification accuracy. Adept at aligning technical solutions with business goals through strong cross-functional collaboration.

Technical Skills –

Languages & Tools: Python, Java, SQL, TensorFlow, Keras, Scikit-learn, Pandas, NumPy, Django, Flask, REST APIs, Git, Linux, Agile/Scrum, Matplotlib.

Concepts: Machine Learning, Deep Learning, Data Analysis, System Optimization, API Integration, Time-Series Forecasting.

Projects-

AI Forecasting System

Python, scikit-learn, Pandas, Flask

- Designed and implemented a forecasting model for demand prediction, improving accuracy by 30%.
- Integrated model with a web dashboard using Flask for real-time predictions.
- Used historical data and visualized trends for sales optimization.

Deep Learning Image Classifier

TensorFlow, keras, CNN, Numpy

- Built a CNN for multi-class image classification achieving 95% accuracy.
- Applied data augmentation and dropout to improve generalization.
- Packaged into a demo app using Streamlit for UI.

PROFESSIONAL EXPERIENCE

Belgium NY LLC

Software Developer

New York, USA
Apr 2023 – Aug 2024

- Built Python-based internal tools for the diamond industry to streamline sales processes.
- Integrated client management systems to improve data access and reporting.
- Led small development teams, improving project delivery timelines by 20%.
- Supported sales strategy with data visualization and reporting tools.

Sky Infoway

Python Developer

Surat, Gujarat, India
Jan 2021 – Dec 2022

- Optimized core algorithms, improving application speed by 25% and reducing memory use by 30%.
- Developed custom REST APIs for seamless integration with third-party services.
- Contributed to Agile sprints, collaborating across engineering and QA teams.
- Enhanced user experience with new feature rollouts, reducing load times by 20%.

Sky Infoway

Python Developer Intern

Surat, Gujarat, India
Jul 2020 – Dec 2021

- Assisted in sprint planning and project meetings, fostering an environment of clear communication and enhanced collaboration across departments.
- Created detailed documentation to support knowledge sharing and onboarding processes, resulting in faster and more efficient onboarding for new team members.
- Diagnosed and debugged production issues, contributing to a reliable, resilient system that reduced downtime and improved user experience.

EDUCATION

Stevens Institute of Technology

Master of Engineering in Applied Artificial Intelligence (STEM certified)

Hoboken, NJ
May 2024

Veer Narmad South Gujarat University

Bachelor of Science in Computer Science

Surat, Gujarat, India
July 2021

Certifications

- Artificial Intelligence Foundations: Machine Learning.
