SUMMARY

Data Engineer with a solid IT background and proven expertise in optimizing data processes and visualization. Demonstrated ability to design and implement robust ETL solutions using Python, SQL, and industry-standard tools to support business intelligence. Successfully enhanced operational efficiency by streamlining data flows and integrating diverse storage systems. Eager to leverage technical skills to develop enterprise-grade data management solutions.

KEY SKILLS & INTERESTS

- **Hardware Operations & Repair:** Server Installation & Configuration, Component-Level Repairs, Hardware Maintenance, Disassembly & Reassembly, Preventative Maintenance
- **System & Network Troubleshooting:** Diagnosing Operating System Issues, Computer/Server Hardware Troubleshooting, Networking Protocols (Installation, Configuration, Troubleshooting), Network Diagnostics (Wireshark, TCP Dump)
- **IT Security & Compliance:** Network Security, Internet Security, Vulnerability Analysis, Threat Detection, Security Best Practices, Information Assurance, System Security
- **IT Infrastructure:** IT Infrastructure Management, System Optimization, Performance Monitoring, OS Patch Management
- **Communication & Training:** Professional Development Delivery, Staff Training, Clear Direction & Goal Setting, Stakeholder Communication, Technical Documentation (creation & update), Consensus Building, Teamwork, Multilingual (English, Hindi, Urdu)
- **Project Management:** RFI/RFP Development, Project Planning & Implementation, Deadline Management, Resource Coordination

WORK EXPERIENCE

Fresh Foods International

Jan 2023 - Present

IT Administrator

- Analyzed and optimized IT systems to enhance data management and support business intelligence initiatives while integrating technology with business goals.
- Configured and maintained critical IT infrastructure to support data storage and processing, ensuring adherence to operational standards.
- Troubleshoot complex technical issues related to hardware, software, and network connectivity, ensuring continuous operational uptime and effective problem resolution.
- Streamlined IT operations to improve data management processes and enhance overall system performance.
- Managed and optimized the online store presence by maintaining accurate product listings and analyzing sales trends to inform strategic decisions.

ExpressVPN

Jan 2023 - May 2024

Social Media Coordinator

- Contributed to social media presence through sponsorships and media awareness campaigns for ExpressVPN.

YouTube

May 2021 - Present

Content Creator

- Began working on a YouTube channel in my senior year of high school called Hermit
- Currently the channel has 531k subscribers, 489 million views, and 313 uploads.
- Worked with sponsors and written invoices to companies such as ExpressVPN

EDUCATION

Kennesaw State University | Kennesaw, GA

Masters, information technology

- **GPA:** 4.0

Kennesaw State University | Kennesaw, GA

Bachelor of Science, Information Technology

- **GPA:** 3.6
- **Coursework:** Introduction to Computer Science, Statistics, Advanced Network Infrastructure, IT System Security, Information Assurance, Policy & Compliance

PROJECTS

Banking Fraud Detection Prototype

- Led the creation of a prototype for detecting banking fraud.

Robot Programming for Competition

- Wrote a program for a robot to shoot 3-pointers and hang from a rope.

Integrity Checker

- Built an Integrity Checker for operating systems with a team with real world applications.

Malware Scanner

- Helped build a simple malware scanner using the Yara framework.

Hackathon Tournaments

- Participated in two hackathon tournaments with projects: Chatbot System and Data Visualization Tool.
