

Education

NATIONAL INSTITUTE OF TECHNOLOGY, KURUKSHETRA

Jul 2020 – May 2024

BACHELOR OF TECHNOLOGY

- CGPA: 8.31/10.00

NAVJEEVAN ACA. SR. SEC. SCHOOL

Rajasthan, India

RAJASTHAN BOARD OF SECONDARY EDUCATION (RBSE) – CLASS 12TH

2019

- Percentage: 85.20%

SHEKHAWATI GRAMIN PUBLIC SCHOOL

Rajasthan, India

RAJASTHAN BOARD OF SECONDARY EDUCATION (RBSE) – CLASS 10TH

2017

- Percentage: 89.83%

Experience

Radixweb

Rajasthan, India

FULLSTACK DEVELOPER

Jan 2025 - Present

- **EdTech Platform Development:** Built school management systems with role-based access (Admin, Teacher, Student) and modules for fee management, attendance, and reporting using React.js, Node.js, and Tailwind CSS.
- **Parcel Management System:** Developed logistics solutions with automated parcel routing and assignment based on weight and value thresholds, integrating Spring Boot APIs and Google SMTP services for notifications.
- **End-to-End Product Engineering:** Collaborated across full-stack development teams at Radixweb to deliver scalable, customer-focused solutions across EdTech and Logistics domains.

Vast Web India

Rajasthan, India

INTERN

- **Optimized Database Management:** Resolved performance bottlenecks and improved query execution. Developed SQL procedures to streamline data updates and maintain accuracy.
- **Improved Payment Transactions:** Enforced platform-specific restrictions to ensure compliance and security. Collected and analyzed user feedback to enhance transaction efficiency.
- **Enhanced Security:** Implemented OTP verification for admin access and password recovery. Strengthened authentication processes to prevent unauthorized access.

Technical Skills

Technologies and Frameworks ReactJS, MySQL, Django, MongoDB, HTML, CSS, NodeJS, OOPs, DSA, Springboot, Microservices

Programming Languages Java, C++, C, Python, Javascripts

Projects

Study-Notion

SELF PROJECT

- **Interactive Learning Platform :** Enables users to create, consume, and rate educational content, fostering an engaging learning experience. Provides a user-friendly interface for seamless content discovery and interaction.
- **Scalable and Secure Architecture :** Built using React.js for a dynamic frontend and Node.js with Express for a robust backend. Utilizes MongoDB for efficient data storage and JWT authentication for secure user access.
- **Performance Optimization and Secure Integrations:** Ensures smooth navigation and fast content loading for an enhanced user experience. Implements best practices in API design and database queries to maintain high scalability. Integrated email functionalities using SMTP and implemented secure online payments through Razorpay APIs. Added caching mechanisms to reduce server load and improve data retrieval speeds.

Employee Management System

URL: [HTTPS://EMPLOYEE-MANAGE-SYSTEM98.NETLIFY.APP/](https://employee-manage-system98.netlify.app/)

Jan. 2025 - March 2025

- **Admin Task Assignment :** The admin can easily assign tasks to employees through a centralized system, streamlining workflow management. Built using React to ensure a dynamic and responsive user experience.
- **Employee Task Visibility :** Employees can view and track their assigned tasks directly from their profile, ensuring clarity and accountability. React's state management enhances real-time task updates for better efficiency.
- **Efficient Task Management :** The system allows seamless communication between admins and employees, ensuring tasks are completed on time. React components optimize performance, providing a smooth and intuitive interface.

Predict Stock Price

SELF PROJECT

Jan 2025 - March 2025

- **Neural Network-Based Prediction :** Developed a Python-based machine learning model using TensorFlow and Keras for stock price prediction. Implemented LSTM, Dense, and Dropout layers to enhance accuracy and prevent overfitting.
- **End-to-End Model Development :** Handled data preprocessing, model training, and testing to ensure reliable predictions. Deployed the trained model as a real-time web application for user accessibility.
- Designed the project with easy-to-understand explanations for those new to ML. Provided a step-by-step guide on building, training, and deploying a stock market prediction model.

Achievements

- 2020 **JEE(MAINS)**, Secured All India Rank Under 12k
- 2022 **Confluence** , Secured 2nd place in the Kavyanjali event , showcasing creativity and poetic expression.
- 2022 **Confluence**, Earned 3rd place in the Group Discussion competition, demonstrating strong communication skills.
