

Sameera Chinta

Richardson, Texas, 75080; 9452576234; sxc220107@utdallas.edu; <https://www.linkedin.com/in/sameera-chinta-3b4a8a263/>

EDUCATION

The University of Texas at Dallas

Master of Science, Computer Science

January 2023 – December 2024

GPA 3.67/4

GITAM University, Hyderabad

August 2017 – June 2021

Bachelor of Technology, Computer Science and Engineering

GPA 8.87/10

PROGRAMMING SKILLS

Languages and Technologies: SQL, Java, Python, C, C++, HTML, CSS, Java Script

Tools and Databases: AWS, Jenkins, Jira, IntelliJ Idea, GitHub, Microsoft Excel, DBeaver, MySQL, Oracle

Relevant Courses: Data Structures, Design and Analysis of Algorithms, Web Technologies, Probability and Statistics, Database Management Systems, Automata Theory, Computer Networks, Computer Vision, Artificial Intelligence, Machine learning.

PROFESSIONAL EXPERIENCE

The University of Texas at Dallas, Dallas, Texas

August 2023 - Present

Teaching Assistant

- Working as a Computer Science grader for Professor Timothy Farage in the Discrete Mathematics for Computing course and for Professor Meghana N. Satpute in the Data Structures and Introduction to Algorithmic Analysis course, my responsibilities include evaluating assignments and exams, offering office hours assistance, and thoughtfully addressing student inquiries and issues.

The University of Texas at Dallas, Dallas, Texas

February 2023 – August 2023

CS Outreach Instructor

- Worked as a CS Outreach Instructor in the Computer Science Department, providing private tutoring in Python, HTML, and Code.org to five students. Instructor for 30 students in CS Outreach summer camp for Web page Designing, Intermediated C++, Intermediated Java, and Intermediated Python

Tata Consultancy Service, Hyderabad

August 2021 – December 2022

Data Analyst

- Worked for Motorola Solution Project.
- Identified root cause analysis and developed code in the dev environment based on client requirements.
- Transferred code changes to the QA environment, performed unit testing, and obtained client approvals.
- Deployed code to production environment using CI/CD pipeline
- Tech Stack: SQL, Python, Tableau, DBeaver, Oracle, Jira, AWS, Jenkins, Git, MySQL

ACADEMIC PROJECTS

SheStore, Database Design

February 2023 – May 2023

- Worked as a team on the "SheStore" project to collaboratively develop a comprehensive e-commerce platform. This platform specialized in providing a wide array of female beauty products spanning various categories
- Achieved outstanding accuracy in developing the project, a collaborative e-commerce platform for diverse female beauty products spanning various categories.

Crime Analysis Mapping Using Data Mining

March 2021 – April 2021

- Developed a Java web application for Crime Analysis, enabling clustering of crime areas by various parameters, crime rate analysis across different demographics, and creation of informative crime rate comparison plots.
- Achieved a high clustering accuracy exceeding 90% when categorizing crime areas based on names, years, and subgroups, demonstrating an ability to provide valuable insights into crime patterns and effectively measure predictive model accuracy with low Root Mean Squared Error.

Detection of Cyber Attack in Network using Machine Learning Techniques

November 2020 – December 2020

- Designed a machine learning system for cyber-attack detection using techniques like artificial neural networks, convolutional neural networks, and random forest.
- Achieved an exceptional accuracy rate of over 95%, demonstrating high precision in identifying malicious network traffic while minimizing false positives.

ADDITIONAL INFORMATION

Eligibility: F1-VISA, Eligible to work in the US for internships and full time for up to 36 months (STEM)
