

SAMHITA MORELAND

schaubal823@gmail.com | (734)780-9066

Education

University of Michigan School of Public Health

Ann Arbor, MI

Graduated: Master of Public Health in Global Health Epidemiology

- Graduate Certificate in Social Epidemiology

Eastern Michigan University

Ypsilanti, MI

Graduated: Bachelor of Science; Major in Chemistry

- Minor in Health Education

Relevant Experience

Epidemiologist III

Remote

Government Contract: Battelle

July 2023 - Present

Government Contract: General Dynamic Information Technology (GDIT)

November 2022 – July 2023

Defense Centers for Public Health – Portsmouth (DCPH-P)

EpiData Center (EDC) - Behavioral and Operational Division

- Provided epidemiological expertise on the development and implementation of behavioral health and disease surveillance projects to support United States Navy (USN), United States Marine Corps (USMC), United States Coast Guard, Armed Forces Health Surveillance Division (AFHSD), Wounded Warrior Regiment (WWR), Department of the Navy Occupational Health, Health Promotion, Population Health/Medical Management, Industrial Hygiene, and Environmental/Public Health Protection Programs.
- Projects consist of, but not limited to, comparing outcome objectives for disease prevention and health promotion by developing code and producing reports that address issues in the military like traumatic brain injury, postpartum depression, substance use, suicide, posttraumatic stress disorder, and serious mental illnesses; these topics are not limited, for example, a project included facilitating and developing SAS and SQL code to analyze Health Level 7 laboratory and chemistry data to report on lupus in the Defense Health Agency (DHA).
- Analyzed and produced monthly reports on Serious Mental Illness in the WWR, and quarterly reports on Traumatic Brain Injury and Mental Health Assessments in the USN and USMC. Consistently review and update all monthly and quarterly codes to implement new versions and additional requests made by customer. With the support of AFHSD and DCPH-P, facilitated and completed annual reports with appropriate statistical method to support the WWR in analyzing their population of service members who died from suicide or have suicide ideation.
- Analyzed medical notes and records for all Navy and Marine Corps service members who died by suicide on a monthly and yearly basis; on average, one marine corps case a month, and five to six navy cases annually. Create summary reports of all relevant behavioral health information for each service member, the goal of which is for the DHA to better understand and identify critical outcome measures for both the morbidity and mortality of suicide in the military.
- All projects consistently require use of the EDC electronic database, which houses large databases including outpatient (CAPER and GENESIS Ambulatory), inpatient (SIDR and GENESIS Inpatient), laboratory (HL7 and GENESIS Lab), ship data (TMDS), pharmacy (PDTs) and military personnel data (M2). These databases, in each project, are used to determine appropriate statistical methods to analyze the large data and then write SAS code for epidemiological surveillance analysis.

Epidemiology Fellow

Oak Ridge Institute for Science and Education (ORISE) Fellowship
Defense Centers for Public Health – Portsmouth (DCPH-P)
EpiData Center (EDC) - Behavioral and Operational Division

Portsmouth, VA
July 2021 – November 2022

- Utilized large databases, like Health Assessment Data, Pharmacy (PDTs), and GENESIS, to design studies, answer questions, and produce reports.
- Assisted in the development and processes of epidemiologic studies in support of the Defense Health Agency Occupational Health, Preventative Medicine, Health Program, Population Health/Medical Management, Industrial Hygiene, and Environmental/Public Health Protection Program.
- Used SAS 9/4 to design and provide public health surveillance data analysis and reporting for Navy and Marine Corps members and beneficiaries.
- Conducted epidemiological analysis about postpartum depression using GENESIS encounter data in military women.
- Completed monthly medical case reviews of suicide surveillance data in the Navy and Marine Corps.
- Completed quarterly reports for multiple projects including traumatic brain injuries, mental health assessments, and serious mental illnesses.

Research Intern

University of Michigan

Ann Arbor, MI
July 2020 – September 2021

Impact of Antenatal Care on Maternal Health Outcomes in Women with Hypertensive Disorders of Pregnancy in Low- and Middle-Income Countries.

- Assisted in a scoping review of over 100 research articles; learning about what research says about the impact of prenatal care on outcomes for women with pregnancies complicated by preeclampsia and related conditions.

Research Assistant

COVID-19 MDHHS Surveillance Project

Ann Arbor, MI
May 2020 – June 2021

University of Michigan School of Public Health

Partnership with Michigan Department of Health and Human Services

- Explored associations between severity of COVID-19 and social stigma experienced by recovered/recovering COVID-19 patients in Michigan.
- Collaborated with the team to program two surveys on Qualtrics that were used live for 2000 study participants.
- Completed surveillance interviews of over 150 participants.
- Conducted qualitative survey data collection in a social epidemiological project for over 20 hours per week.
- Engaged participants in study survey to learn about their COVID-19 experience.

Other Experience

Michigan Medicine

Inpatient Unit Clerk- Pediatric Intensive Care (PICU) and Adult Cardiovascular ICU

Ann Arbor, MI
Jul. 2017 – Aug. 2019

City Year's Team Care Force

Senior AmeriCorps Member

Boston, MA
Jul. 2016 – Jun. 2017

City Year Tulsa

AmeriCorps Member

Tulsa, OK
Jul. 2015 – Jun. 2016

Organizations and Leadership

Epidemiology Student Organization (ESO)

President

University of Michigan School of Public Health Department of Epidemiology

Ann Arbor, MI
Aug. 2020 – Apr. 2021

- Identified and developed day-to-day administrative tasks.

- Figure-headed functions of ESO.
- Facilitated a feedback system between the students in the Epidemiology department and the department administration, guaranteeing a voice to the students as well as for ensuring communication and feedback within the eight ESO board members.
- Scheduled and coordinated all ESO events; ensuring social, service, fundraising, and networking activities are offered in each term.
- Assisted other board members in any of their duties, as necessary.
- Assisted with community-building, such as service-learning activities, as well as the presentation of the public image of ESO.
- Served on the Epidemiology Admissions Committee as a student representative.

Volunteering Experience

Completion of over 2000 hours of national service with AmeriCorps (2015-2017).

Completion of over 500 hours of formal academic tutoring experience (2015).

Physician Shadowing:

- Alisa Kahn M.D M.P.H- Pediatric Internal Medicine at Boston Children's Hospital (April 2017)
- Subrata Sarker M.D.- Brandon Neonatal Intensive Care Unit at Michigan Medicine (September 2017)

Skills and Awards

Software skills:

- SAS: SAS Certified Specialist: Base Programming Using SAS 9.4
- SQL
- R
- GIS
- Qualtrics
- Rayyan
- Microsoft Office
- Google Platforms
- Epic's MiChart program

Military health data platforms:

- Military Health System Mart Mart (M2)
- Military Health System (MHS) GENESIS
- Armed Forces Health Longitudinal Technology Application (AHLTA)

Languages:

- English – Fluent
- Hindi - Fluent
- Marathi - Fluent
- German - Elementary

Recipient of two National Education Segal Awards - \$5000 each (2015-2017).

Certification of Completion of Mini-Med School classes: Harvard University (2017)

Dean's List Award recipient at Eastern Michigan University (2010-2012).
