## EDUCATION

---

**Master of Science:** Data Analytics, Expected in 08/2025

**Indiana Wesleyan University** - Marion, IN

- Relevant Coursework: Python & R-Programming
- Relevant Coursework: DBMS & Excel in DA
- Professional Development: Big Data & Data Mining

**Bachelor of Science:** Computer Science, 07/2021

**NRI Institute of Technology** - India

- Relevant Coursework: Java & Python & C - Programming
- Relevant Coursework: DBMS & Testing
- Professional Development: Python & DBMS
- GPA - 73%
- Extracurricular Activities: Hosting the events in School and Class representative and PPT presentations.
- Scholarship Recipient: Received student scholarships from Govt. of India.

---

## PROFESSIONAL SUMMARY

---

Currently pursuing a master's in Data Analytics, I am seeking an internship in the field of data analysis to apply my analytical, problem-solving, and technical skills. With a strong foundation in data management, statistical analysis, and data visualization, I have hands-on experience from internships in ethical hacking and cybersecurity, where I honed my attention to detail and critical thinking abilities. Additionally, I bring over 2 years of professional experience as an Associate Systems Engineer, where I specialized in automation tools like Control-M and mainframe systems. My diverse background in IT, cybersecurity, and systems engineering equips me with a unique perspective on data analysis, making me eager to contribute to a dynamic team and apply my expertise in data-driven decision-making.

---

## ACCOMPLISHMENTS

---

- Got much appreciation from Clients during the deployments and some emergency upgrade activities.
- I played a key role in leading the migration of a project from one tool to another, ensuring a seamless transition while minimizing disruptions and maintaining system integrity throughout the process.

---

## SKILLS

---

- Python and Django
- Java Programming
- SQL Proficiency
- Data Visualization and Presentations
- Pivot tables
- Control-M Scheduling
- System monitoring
- Big Data
- Scheduling Management - Mainframe

---

## WORK EXPERIENCE

---

**Associate Systems Engineer**, 08/2021 - 12/2023

**CGI – India**

- Worked on Automation tools like Control-M, Mainframe, Unicenter, cronacle.
- Ticketing tools: ITSM and Service now.
- Key Skills:
- **Control-M Expertise:** Skilled in creating, scheduling, and monitoring automated workflows using BMC Control-M.
- **Mainframe Operations:** Hands-on experience with IBM mainframe systems, managing job scheduling, and handling JCL (Job Control Language) for job automation and spool and job-trac.
- **Job Automation:** Proficient in automating repetitive tasks and optimizing workflows to improve performance and reduce manual intervention.
- **Batch Processing:** Experience in managing, troubleshooting, and optimizing batch jobs, ensuring minimal downtime and high system availability.
- **System Monitoring:** Adept at using monitoring tools to track system performance, identify issues, and perform root-cause analysis for quick resolution.
- **Incident Management:** Experienced in diagnosing and resolving system failures, job errors, and operational issues in a timely manner.
- **Collaboration:** Proven ability to collaborate with development, operations, and support teams to improve system performance and reliability.
- Got many appreciations from clients.

**Intern**, 12/2020 - 02/2021

**Supraja Technologies – India**

- Certified in ethical hacking and cybersecurity, the level-1 workshop was conducted by Supraja Technologies in India.
- I got shortlisted and certified for the 2nd level for an Internship in Supraja Technologies.
- **Skills:**

- **Network Security:** In-depth understanding of firewalls, VPNs, IDS/IPS, and network protocols (TCP/IP, HTTP/HTTPS).
- **Vulnerability Assessment:** Experience in identifying, analyzing, and mitigating security vulnerabilities.
- **Operating Systems:** Comfortable with Linux (Kali), Windows, and MacOS environments.
- **Programming Knowledge:** Skilled in Python, Bash scripting, and JavaScript for automating tasks and security testing.
- **Ethical Hacking:** Understanding of ethical hacking principles, including reconnaissance, scanning, exploitation, and post-exploitation.
- **Incident Response:** Familiar with basic incident response procedures, log analysis, and threat detection.
- **Compliance Knowledge:** Awareness of security standards and regulations (ISO 27001, GDPR, NIST).

---

### CERTIFICATIONS

---

- Got workshop certificate in ethical hacking and cyber security, Supraja Technologies.
- Secured internship Certificate in Ethical hacking and Cyber Security, Supraja Technologies - Dec 2020 to Feb 2021.
- Secured Azure certificate from Microsoft.
