EDUCATION

Stevens Institute of Technology | Hoboken, NJ

August 2022 - May 2024

Master of Engineering (*Engineering management*) - **4.0 GPA** (as of 2nd semester)

Related Courses: Supply chain analytics, Multivariate Data analysis, Engineering Economics & Cost Analysis, Informatics for Engineering Management, Decision & Risk Analysis, and Data Science

SRM Institute of Technology | Chennai, TN/India

July 2015 - June 2019

Bachelor of Technology (*Mechanical Engineering*)

SKILLS

Programming Skills: Python

Database Management Systems: SQL (MySQL), Alteryx

Analytics Software: Tableau, Power BI, Microsoft Excel, and Microsoft Office Tools

Designing software: AutoCAD, Solidworks, Catia, Creo, Inventor

COMPETENCIES

Expertise in persuasive Communication, Agile mindset, Problem-solving, Critical thinking, Decision-making, Quantitative methods, Project Management, Ability to work in a diverse team, Fast learner with amalgam of positive attitude, highly motivated and Skillful individual

Certifications: Python, SQL, Tableau, Solidworks

EXPERIENCE

Flowserve Corporation, Chennai | Asst. Design Engineer (Full-time) | TN/India

July 2019 - June 2022

- Exceeded the performance of a Yellow Belt in a Continuous Improvement program and implemented a standardized filter design that improved efficiency by 16% in the APAC region
- Collaborated closely with cross-functional teams to ensure that products and services were delivered to customers on time and met high-quality standards of 99.2%
- Charted P&ID, BOM, Project Datasheet, electrical drawings, project schedule, project cost estimation, and after-market proposal, resulting in a 20% improvement in project operations
- Drove Master Data initiative, increasing data standardization by 30% and creating standardized codes for 10,000+ parts from Flowserve and vendors
- Managed end-to-end mechanical dry gas seal panel design process, including 2D and 3D modeling and Bill of Materials development, resulting in a 98% on-time delivery rate and ensuring precise and timely project execution

ACADEMIC PROJECTS

- Network container project for clip on book light:** Devised profitable supply chain for 1 million Clip on Book Light/year at less than 83.6 cents/unit from China to US via Dollar Tree by enhancing logistics, optimizing supplier selection, and fostering partner collaboration
Nov 2022 - Dec 2022
- Career Planner for students:** Developed a Monte Carlo simulation-based interactive dashboard in MS Excel to optimize user inputs, resulting in personalized recommendations through a Multi-Attribute Utility model, Achieved a 30% increase in user engagement and satisfaction
Nov 2022 - Dec 2022
- Go-kart Fabrication for Go-kart Design Challenge (GKDC) 2017 and 2019:** Innovatively designed and fabricated a GKDC-compliant kart from scratch, utilizing CAD software and a Honda Shine 125cc engine, conducted finite element analysis, resulting in a quantifiable 35% improvement in driver safety
Apr 2016 – Feb 2019

LEADERSHIP POSITION

- Recon Subsea club | Systems Head | SRM IST
Sept 2018 - Mar 2019
- Team Full Throttle Go-kart racing club | Team Lead | SRM IST
May 2018 - Feb 2019

HONOURS & ACHIEVEMENTS

- Received \$10,000 academic scholarship from Stevens Institute of Technology
Sept 2022
- Secured Spirit of Flowserve from Flowserve Corporation for completing 13 projects with an optimistic attitude and 99% efficiency for Exxon Mobile, Sinopec China, CNOOC, and CNPC
Aug 2021
- Acknowledged Certificate of Social Responsibility- Eco-Champ Climate action camp
Mar 2021 - May 2021
- Awarded Spirit of Flowserve for Kaizen project where optimized part of operations by 18%
Jan 2020
- Received Certificate of appreciation: SRM Milan Community for organizing Milan premiere league
Mar 2018
