SUMMARY

Master's student in Computer Science with hands-on experience in AI/ML, full-stack development, and cloud technologies. Skilled in building scalable web & mobile applications, GenAI solutions, and data-driven systems. Strong foundation in DSA, OOP, system design, microservices, and agile collaboration.

WORK EXPERIENCE

Software Engineer Intern

June 2025 – Present

Cognera Health

- **Technologies:** Flutter(Dart), TypeScript, Next.js PostgreSQL, Microsoft 365, Azure DevOps, VS Code, Agile Practices, Cursor +
- Optimized PostgreSQL queries and designed Supabase workflows for authentication and data persistence.
- Implemented social login authentication and chat history saving in MVP Flutter–FastAPI app as flutter developer.
- Built and deployed an **AI voice agent (GPT-4)** integrated with Flutter and web components, contributing to **full-stack and backend architecture** with testing using testflight.
- Collaborated in Agile sprints using Azure DevOps, Jira, and Confluence demonstrating **cross-functional collaboration**.

AI Agent Developer Intern

January 2025 – February 2025

BCAMP, USA

- **Technologies:** Python, Google OAuth, Gmail API, HuggingFace Transformers, T5-small, Prompt Engineering, GenAI
- Designed an email summarization pipeline using Gmail API, OAuth2, and HuggingFace Transformers (T5, BERT, BART).
- Applied prompt engineering to improve abstractive summarization quality.
- Built a secure offline-first inference pipeline with google cloud integration; led stakeholder demos and peer reviews showcasing problem-solving skills.

Web Developer

September 2020 – April 2023

Reserve Bank Information Technology Pvt Ltd, India

Technologies: HTML, CSS, JavaScript

- Developed responsive websites using HTML, CSS, and JavaScript, ensuring accessibility and cross-browser compliance with strong attention to detail.
- Enhanced performance via image optimization, minification, and lazy loading.

Business Analyst

July 2019 – August 2020

SAVIC Technologies, India

- **Technologies & Methodologies:** Agile Scrum, SDLC, Microsoft Excel, Word, PowerPoint
- Applied agile Scrum & SDLC to gather requirements, optimize business processes, and deliver client solutions; analyzed data in Excel/MS Office to produce actionable reports and track project execution and **time management**.

ACADEMIC EXPERIENCE

Medical Chatbot – Explainable Q&A with LLM

July 2025 – Present

- **Technologies:** Python, FastAPI, Hugging Face Transformers, Seq2Seq LLMs, Kaggle API, Colab, NLP
- Built a clinical Q&A agent using HuggingFace Transformers AI Models & FastAPI fine-tuned decoding for clarity in medical reasoning.

Hotel Booking System and End-to-End Software Testing

January 2025 – May 2025

- **Technologies:** React (SPA), Flask, Python, PostgreSQL, Selenium, TestNG, PyTest, Maven

- Developed a React + Flask + PostgreSQL booking system; automated testing with Selenium & PyTest; CI pipelines with Maven.

Sales Forecasting for Retail Store Using Machine Learning

October 2024 – December 2024

- **Technologies:** Scikit-learn, XGBoost, Data Pipeline, Python, NumPy, Pandas, Matplotlib
- Built XGBoost & Random Forest models for retail sales; optimized via GridSearchCV; visualized predictions with Matplotlib.

Chatbot for Android Platform

September 2024 – December 2024

- Built a responsive Kotlin/XML chatbot with Firebase auth and optimized SQLite DB; managed version control via GitHub.

Real Estate Web Application

January 2024-May 2024

- **Technologies:** HTML5/CSS3 (flexbox) , JavaScript, Express.js, NodeJS, MongoDB, REST API
- Full-stack CRUD app using Node.js, Express, MongoDB, and vanilla JS; designed RESTful APIs and unit tests

EDUCATION

- M.S. in Computer Science – Oakland University, MI
- Master's in Business Administration – NMIMS, India
- B.S. in Information Technology – University of Pune, India

Expected December 2025

December 2022

May 2019

TECHNOLOGIES

- **Languages & Frameworks:** Python, JavaScript, TypeScript, Dart, React, Node.js, Flask, FastAPI, Flutter,PowerBI
- **Frontend:** React, Flutter, HTML, CSS, JavaScript, Figma, WCAG/ADA, Tailwind, Angular(Basic)
- **State Management:** Hooks(useState), Context API, Redux
- **Tools & Testing:** GCP, AWS, GitHub, Jira, Azure DevOps, Selenium, PyTest, Cypress, CI/CD basics, Linux
- **Database:** MSSQL, MYSQL, MongoDB, SQL
