

Sanjana Chitoor Mahender, Business Analyst

Location: CO | Email: sanjana@itjobtech.com | Phone: 720-843-7140

SUMMARY

Results-driven **Business Analyst with 4+ years** of experience proficient in **Microsoft Office Suite, Power BI, and Tableau**, with expertise in **SQL** and **Python** for advanced **data analysis, visualization, and reporting**; demonstrated ability to collaborate with cross-functional teams, utilizing project management tools like **Jira** and **Confluence** to drive successful projects following **SDLC** and **Agile** methodologies; skilled in database systems including **MySQL, Microsoft SQL Server, and MS Azure**, ensuring accurate and reliable data for critical decision-making; known for exceptional documentation and reporting skills, consistently delivering comprehensive user and process documentation; expertise in project tools such as **MS Visio, MS Dynamics 365, and PeopleSoft**, enhancing project efficiency and effectiveness; strong understanding of **Waterfall, SDLC, and SCRUM Agile** methodologies, ensuring alignment of business objectives with project outcomes.

SKILLS

Methodologies	Agile Methodology, Waterfall, SDLC.
Project Management Tools	SharePoint, Jira, Confluence, Trello, MS Project.
Language	Python, C, C++, Java, SAS, R, SQL.
Cloud Computing	Apache Spark, MS Azure
Visualization Tools	Tableau, Power BI, Google Data Studio.
Analytics Skills	Data Analysis, Regression Analysis, Market Research, Business Analysis, Business Intelligence, Product Analysis, Business Forecasting, Strategic Planning, Data Mining, Predictive Analytics, Statistical Analysis, Data Governance, Data Warehousing.
Database System	MYSQL, RDBMS, Microsoft SQL Server.
Packages	Tableau, Power BI, Apache Spark, MS Office, Excel Add-Ins (Solver, Data Analysis), Google Analytics, Google Data Studio.
Project Tools	Confluence, Jira, MS Visio, MS Dynamics 365, PeopleSoft
Operating System	Windows, Linux, Mac

Education

Master in Information Systems, Business School GPA 3.82 Specialization: Business Intelligence University of Colorado	Denver, CO May 2024
Master of Dental Surgery GPA 3.56 Specialization: Oral Pathology Dr. MGR Medical and Research Intern	Chennai, India July 2021
Bachelor of Dental Surgery GPA 3.89 The Tamil Nadu MGR Medical University	Chennai, India November 2017

Experience

The Cigna Group, USA Business Data Analyst	Sep 2023 - Present
- Conducted ad-hoc analysis and data querying using SQL and Excel to generate business insights. - Collaborated with stakeholders to gather business requirements and translate them into functional specifications for healthcare initiatives. - Collaborated with IT teams to implement a demand planning tool, resulting in a 25% improvement in forecasting accuracy and a 10% reduction in stockouts. - Leveraged Python for strategic planning, delivering briefings for healthcare market entry planning for the business development team. - Conducted extensive interviews and facilitated stakeholder workshops to compile and document in-depth project requirements across functional requirements documents (FRDs), business requirements documents (BRDs), and user stories. - Collaborated with development teams to optimize MongoDB queries and indexing strategies, enhancing database performance and scalability for large healthcare datasets. - Extracted and analyzed data from MongoDB collections to generate comprehensive reports and insights for healthcare providers and administrators.	

- Used **Jira** and **Confluence** to track project progress, manage requirements, and facilitate team communication within healthcare projects.
- Utilized Apache **Kafka** to manage real-time **data streams**, enabling efficient and reliable integration of patient data across multiple healthcare systems and applications.
- Managed projects using **agile methodology** to ensure timely software delivery.
- Conducted **user acceptance testing (UAT)** and worked closely with development teams.
- Led data migration efforts from legacy databases, including **SQL Server, Excel, Flat, and Access**, to **modernize data storage** and accessibility in a healthcare setting.

Hexaware Technologies, India
Business Data Analyst

Jan 2019 – Jul 2022

- Enhanced enterprise system integration with a new payment system, utilizing **Agile methodology** and collaborating with technical and business teams.
- Generated comprehensive financial and customer reports using **Tableau, Excel, and Power BI**, driving improved sales and customer relations. Designed interactive dashboards for informed decision-making.
- Employed **NumPy** arrays for advanced numerical operations and **Pandas Data Frames** to perform **data cleaning, filtering, and transformation**.
- Designed and implemented **data models** on the **PostgreSQL database**, including tables, views, and functions.
- Played a key role in **PeopleSoft implementations**, focusing on **testing and process** consulting for successful system deployment. Created **UML** diagrams for effective **project communication**.
- Conducted market research and analyzed consumer behavior for data-driven decision-making, using **Tableau, Power BI, and Google Data Studio** for interactive visualizations.
- Improved supply chain efficiency by analyzing **KPIs**, resulting in a 12% increase.
- Collaborated on cross-functional teams for targeted marketing campaigns aligned with market research and consumer preferences.
- Conducted **competitive analysis** to enhance brand awareness and market share.
- Prepared concise reports for **senior management**, enabling **data-driven decision-making and strategic planning**.
- Conducted **data cleansing and validation** for accurate and reliable analysis.
- Collaborated on **data models and databases**, optimizing storage and accessibility.
- Utilized **statistical analysis and visualization tools** for operational efficiency improvements and enhanced customer experience. Assisted in implementing **data-driven** solutions.
