

Sanjana Reddy Yeruva

ysanjana.0502@gmail.com | 940-344-3513 | <https://www.linkedin.com/in/y-sanjana-reddy>

Professional Summary:

Cloud-focused Software Engineer specializing in scalable microservices, distributed backend systems, and cloud-native platforms. Skilled in Kubernetes, Docker, CI/CD, observability, and incident response, with a strong foundation in Java, C, C++, C#, and Python. Actively exploring Rust and Azure to deepen cloud proficiency. Passionate about delivering reliable, high-performance solutions through technical precision, automation, and continuous improvement.

Education:

University of North Texas, Master of Science | Computer Science

Aug 2023– May 2025

- GPA: 3.83/4.0
- Coursework: Fundamentals of Artificial Intelligence, Cybersecurity Essentials, Computer Algorithms, Software Engineering, Computer Networks, Wireless Networks and Protocols, Fundamentals of Database Systems, Big Data and Data Science, Data Analytics, Data Modelling.

Experience:

Software Engineer | Culture Concept – Hyderabad, India

Jan 2022 – Jul 2023

- Optimized backend systems, reducing server response times by 30% and improving uptime with proactive monitoring and logging.
- Automated CI/CD workflows and containerized services using Docker and Kubernetes, reducing deployment errors by 40% and enabling scalable rollouts.
- Collaborated with cross-functional teams to scale microservices, resulting in a 15% increase in application reliability.
- Led incident response and on-call rotations, which reduced production issue resolution time by 25%.

Software Engineer Intern | Culture Concept – Hyderabad, India

Jun 2021 – Dec 2021

- Developed and deployed full-stack features (React, Node.js, MySQL) with REST APIs, improving feature delivery speed by 25%.
- Debugged and resolved frontend–backend integration issues, cutting user-facing errors by 30%.
- Acquired practical experience using Docker containers for testing and integration, ensuring consistent environments.
- Built unit tests and automated monitoring scripts to improve reliability and reduce post-release defects by 20%.

Projects:

Shop Square

Jan 2025 – May 2025

- Designed a microservices-based e-commerce system with React, Node.js, and MongoDB, deployed on Docker and Kubernetes for scalability.
- Integrated secure payments and real-time order tracking, achieving five-nines transaction reliability and boosting mobile engagement by 40%.

TA Management Suite

Feb 2024 – May 2024

- Built distributed backend services and REST APIs for 500+ users, delivering 99.9% uptime SLA compliance.
- Used Kubernetes orchestration and observability tools (logging, monitoring, alerts) to ensure scalability, fault tolerance, and proactive incident response.

Eyeball Cursor Movement Using OpenCV

Sep 2022 – Apr 2023

- Created a real-time eye-tracking system for accessibility with 95% accuracy, reducing latency by 40% and error rates by 30%.
- Led agile team collaboration and delivered ahead of schedule, ensuring robust testing and integration.

Online Leave Management System

Feb 2022 – May 2022

- Developed a secure, cloud-ready HR platform that digitized approvals and workflows, cutting manual processing by 50%.
- Implemented compliance-focused audit trails and authored documentation to reduce onboarding time by 30%.

Technical Skills:

Languages: C, C++, C#, Python, Java, JavaScript, PHP, Rust (Actively developing)

Cloud & Infrastructure: Azure (Working knowledge of), Kubernetes (Working knowledge of), Docker (Working knowledge of), CI/CD, Service Monitoring, Logging, Incident Response

Backend & Databases: Node.js, Express.js, Spring Boot, MongoDB, MySQL, PostgreSQL, Oracle

Web & UI: React.js, Angular, HTML5, CSS3, Bootstrap, jQuery

Systems & Tools: Git/GitHub, Postman, Linux/Windows, Agile/Scrum

Areas of Proficiency: Microservices, Distributed Systems, Observability, Performance Optimization, Secure API Development

Certifications:

- ISTQB Foundation Level Certificate in Software Testing – ISTQB (Mar 2023)
- IoT Fundamentals: Connecting Things– Cisco (Mar 2022)
- Programming Essentials in C, C++, Python – Cisco (2020–2021)
- Database Programming with SQL – Oracle Academy (2020)
- Networking Essentials– Cisco (Feb 2020)
